Our Product Owners will review your ideas monthly and you will be notified on any changes made to the status of your ideas. We will let you know personally once your idea has been scheduled.
Make sure you also vote on ideas that you want to see in the product, as we will take this into account when deciding on what ideas to implement.
If you have an immediate need for a feature please submit a Change Request instead.

Report of system-generated emails

Application/Area
General

Description
I'd love to have a way to get a report of which users have been emailed logins, or even which users have been emailed by the system at all. This way, I'd be able to confirm whether we've sent passwords to all the intended users (in my case, I just triggered about 300 manually, and some may not have been completed), and trigger them on our end.
