Our Product Owners will review your ideas monthly and you will be notified on any changes made to the status of your ideas. We will let you know personally once your idea has been scheduled.

Make sure you also vote on ideas that you want to see in the product, as we will take this into account when deciding on what ideas to implement.

If you have an immediate need for a feature please submit a Change Request instead.

**Short summary of idea\***

"Next" and "Previous" links in Course Modules

**Application/Area**

Learning

**Description**

When in a module, it would be very helpful if there were a way to include a "Next" and "Previous" button on the bottom of the module page to easily direct users to the next/last module. It seems like the only way to do that now is by manually going back to the main course page through the breadcrumb navigation, which is unintuitive for some users. Even if it had to be done manually by inserting links to the next/previous page, it would be better than nothing.
