Our Product Owners will review your ideas monthly and you will be notified on any changes made to the status of your ideas. We will let you know personally once your idea has been scheduled.

Make sure you also vote on ideas that you want to see in the product, as we will take this into account when deciding on what ideas to implement.

If you have an immediate need for a feature please submit a Change Request instead.

### Short summary of idea\*

Export permissions per user for all applications

### Application/Area

General

### Description

The ability to export users with corresponding permissions. At the moment if a certain permission has been assigned to a user by name, there is no way identifying that apart from going through all the permissions in all the applications individually, which is incredibly time consuming.
