Our Product Owners will review your ideas monthly and you will be notified on any changes made to the status of your ideas. We will let you know personally once your idea has been scheduled.

Make sure you also vote on ideas that you want to see in the product, as we will take this into account when deciding on what ideas to implement.

If you have an immediate need for a feature please submit a Change Request instead.

### Short summary of idea\*

Page widget that allows you to link to a variety of assets

### Application/Area

Pages

### Description

I see a real weakness in the platform when we want to set up a list of links quickly to pull items together that are the same topic or connected to the same process. I had to hand code an example for our fall prevention process. It's not a scalable solution for non-coders.

There needs to be a widget where you can select documents, policies, buttons, knowledge base articles, etc together via point and click so non-technicals can curate the list.
