Short summary of idea*
"OR" Logic for IC Pre-filter Options

Application/Area
Infocapture

Description
See support ticket 042673.

IC Pre-filter Options only allows for 'AND' type logic. eg if you select two filters they BOTH have to be true for the logic to apply.
For example, if you have "Department = Housekeeping" selected, and "Other Department = Housekeeping" selected, they both have to be true.

I would like to have the option to do 'OR' type logic. So in the above example the Department OR Other Department being Housekeeping would generate on the report.
