Our Product Owners will review your ideas monthly and you will be notified on any changes made to the status of your ideas. We will let you know personally once your idea has been scheduled.

Make sure you also vote on ideas that you want to see in the product, as we will take this into account when deciding on what ideas to implement.

If you have an immediate need for a feature please submit a Change Request instead.

### Short summary of idea\*

Ability to add fields to events similar to infocapture forms

### Application/Area

Events

### Description

When creating events, it would be useful to be able to add additional fields such as text boxes & radio buttons/ tick boxes to them when required.

For example, when creating an event for a corporate meal, if there can be a way to make it mandatory for people to add dietary requirements etc. rather than the pop-up at the end that could be missed/ clicked off accidentally.
