Our Product Owners will review your ideas monthly and you will be notified on any changes made to the status of your ideas. We will let you know personally once your idea has been scheduled.

Make sure you also vote on ideas that you want to see in the product, as we will take this into account when deciding on what ideas to implement.

If you have an immediate need for a feature please submit a Change Request instead.

Short summary of idea*

Allow companies to include Logo on emails from Claromentis

Application/Area

Communication

Description

With the email notification creating a log-in for our customers or an email update. Basically any form of email communication, that comes directly from Claromentis to our customers, It would be really handy to have the ability to add our Logo.

We have had many people concerned with the email they receive and have thought it was a Phishing email. As we are a cybersecurity company, this does not bode well.

Anything to make it look more real would be helpful.
