Please feel free to submit new product enhancement ideas. Our Product Owners will review your ideas periodically and let you know personally if your Idea has been scheduled for development.

Unfortunately, it is not possible to pick up every Idea and not every Idea will receive a reply.

Make sure you also vote on Ideas that you want to see in the product, as we will take this into account when deciding on which ideas to implement.

If you have an immediate need for a feature please submit a [Change Request \(https://discover.claromentis.com/forms/changes\)](https://discover.claromentis.com/forms/changes) instead.

**Short summary of idea\***

Dark Mode

**Application/Area**

General

**Description**

Hi there,

I'm writing to suggest the creation of a dark mode option for users. Not having this option creates accessibility issues for users who are sensitive to light.

As I understand it, there is a workaround to create a theme for users to set themselves, however some elements are auto-set to white. This means that if we set the other elements to a dark color, it will INCREASE eye strain, as opposed to decreasing it.
