News: Make Search Results Display by Relevance and Date

Application/Area
News

Description
Please consider making the global search list results by relevance and then in chronological order.

It will help tremendously when searching. For example, if someone searches "Holiday Items" on our site right now, it brings up holiday posts from 2016. If it displayed the most recent first, the holiday items post from 2023 would appear at the top vs. page 6 or 7.
