Please feel free to submit new product enhancement ideas. Our Product Owners will review your ideas periodically and let you know personally if your Idea has been scheduled for development.

Unfortunately, it is not possible to pick up every Idea and not every Idea will receive a reply.

Make sure you also vote on Ideas that you want to see in the product, as we will take this into account when deciding on which ideas to implement.

If you have an immediate need for a feature please submit a [Change Request (https://discover.claromentis.com/forms/changes)](https://discover.claromentis.com/forms/changes) instead.

Short summary of idea*

Enhance PowerPoint/PDF Preview

Application/Area

Documents

Description

In documents, when viewing an uploaded PowerPoint file, it shows the preview in PDF format. It appears the OpenOffice PDF generation is not accurately converting PowerPoint files as some coloration and other features are not displayed. It would be great to either enhance that functionality to display correctly, or potentially hook into Microsoft's PDF generation somehow to get a more accurate rendering.
