News Item Approval - Decline comments

**Application/Area**  
News

**Description**  
Please can you introduce a way to provide feedback regarding a news article that goes through the approval process?

At the moment, I believe if I decline a news article, it goes back to the submitter simply saying 'declined'. I'd like to be able to provide notes alongside it whereby I can say "please change xx or xx and resubmit before I approve this news item.

Currently, I have to decline it and then separately email the staff member to explain why it's been declined and what needs to be done for it to be approved.

thanks.
