Please feel free to submit new product enhancement ideas. Our Product Owners will review your ideas periodically and let you know personally if your Idea has been scheduled for development.

Unfortunately, it is not possible to pick up every Idea and not every Idea will receive a reply.

Make sure you also vote on Ideas that you want to see in the product, as we will take this into account when deciding on which ideas to implement.

If you have an immediate need for a feature please submit a [Change Request \(https://discover.claromentis.com/forms/changes\)](https://discover.claromentis.com/forms/changes) instead.

Short summary of idea*

Color coded icons in document search

Application/Area

Documents

Description

When viewing files, the document 'Thumbnail View' is colour-coded. Can we have the same color coding in the document search results? That would help users to intuitively know which document types for further filtering. Eg. if they were looking for a Word doc, they could easily skip the green Excel icons or the red PDF icons.
