Please feel free to submit new product enhancement ideas. Our Product Owners will review your ideas periodically and let you know personally if your Idea has been scheduled for development.

Unfortunately, it is not possible to pick up every Idea and not every Idea will receive a reply.

Make sure you also vote on Ideas that you want to see in the product, as we will take this into account when deciding on which ideas to implement.

If you have an immediate need for a feature please submit a Change Request (https://discover.claromentis.com/forms/changes) instead.

Short summary of idea*

Ability to have role permissions so that only users in roles can edit/delete certain announcements and not all like now.

Application/Area

Other

Description

Currently you have to make a user an administrator of Announcements to give them permissions to create an announcement. Would like the ability to assign roles so that only users in certain roles who have access to create an announcement can then edit/delete someone else's announcement.
