Please feel free to submit new product enhancement ideas. Our Product Owners will review your ideas periodically and let you know personally if your Idea has been scheduled for development.

Unfortunately, it is not possible to pick up every Idea and not every Idea will receive a reply.

Make sure you also vote on Ideas that you want to see in the product, as we will take this into account when deciding on which ideas to implement.

If you have an immediate need for a feature please submit a [Change Request \(https://discover.claromentis.com/forms/changes\)](https://discover.claromentis.com/forms/changes) instead.

Short summary of idea*

Add a "time spent" field to Training Records

Application/Area

Learning

Description

***Edited

I've realised it's possible to add a field to training records in the metadata admin panel, which resolves my specific problem, however I still think a time field would be useful as a default***

For people with a CPD requirement in hours, it would be really useful to have a field just to input the number of hours spent on a training activity. That way, it would appear as a separate column when they export their training records to csv so the time could be easily added up. It would be fantastic for us if this were added as a lot of our people have to complete a set number of hours training each year to retain accreditations etc.

Thanks for considering this!
