Please feel free to submit new product enhancement ideas. Our Product Owners will review your ideas periodically and let you know personally if your Idea has been scheduled for development.

Unfortunately, it is not possible to pick up every Idea and not every Idea will receive a reply.

Make sure you also vote on Ideas that you want to see in the product, as we will take this into account when deciding on which ideas to implement.

If you have an immediate need for a feature please submit a [Change Request (https://discover.claromentis.com/forms/changes)](https://discover.claromentis.com/forms/changes) instead.

Short summary of idea*
Add ability to remove document overview area

Application/Area
Documents

Description
The right third of the window when viewing a document is taken up by an overview area, it would be good to have the ability to remove/collapse that area so that users can have that entire area of the screen to view the document in a larger size.
