Please feel free to submit new product enhancement ideas. Our Product Owners will review your ideas periodically and let you know personally if your Idea has been scheduled for development.

Unfortunately, it is not possible to pick up every Idea and not every Idea will receive a reply.

Make sure you also vote on Ideas that you want to see in the product, as we will take this into account when deciding on which ideas to implement.

If you have an immediate need for a feature please submit a [Change Request](https://discover.claromentis.com/forms/changes) (<https://discover.claromentis.com/forms/changes>) instead.

Short summary of idea*

Customise no-cache values

Application/Area

General

Description

It would be useful for smaller implementations like ours to be able to customise the caching behaviour of pages. Using meta tags such as cache-control or pragma would be a good solution to this
