Please feel free to submit new product enhancement ideas. Our Product Owners will review your ideas periodically and let you know personally if your Idea has been scheduled for development.

Unfortunately, it is not possible to pick up every Idea and not every Idea will receive a reply.

Make sure you also vote on Ideas that you want to see in the product, as we will take this into account when deciding on which ideas to implement.

If you have an immediate need for a feature please submit a [Change Request (https://discover.claromentis.com/forms/changes)](https://discover.claromentis.com/forms/changes) instead.

Short summary of idea*
Improve usability of registration button

Application/Area
Events

Description
The button language and color for event registration is confusing to some users.

When a user is not yet signed up, the button is bright and says, "Yes, I'm going". (Suggest, "register my booking".)

Then the event registry when a user is signed up it say, "edit/cancel your booking" and is greyed out as if it is *not* an option. (Suggest, " edit/cancel my booking" and keep the button a bright color so it seems as if it is an option.)
