Please feel free to submit new product enhancement ideas. Our Product Owners will review your ideas periodically and let you know personally if your Idea has been scheduled for development.

Unfortunately, it is not possible to pick up every Idea and not every Idea will receive a reply.

Make sure you also vote on Ideas that you want to see in the product, as we will take this into account when deciding on which ideas to implement.

If you have an immediate need for a feature please submit a [Change Request (https://discover.claromentis.com/forms/changes)](https://discover.claromentis.com/forms/changes) instead.

Short summary of idea*
The ability for admin to see scheduled Blogs

Application/Area
Blog

Description
Currently when approved blogs have a future publication date they cannot be viewed by anyone other than the author.

This means that admins need to keep an offline note of which blogs are due to be published.

It would be better if draft and pending blogs appeared in the admin so we could still view/edit/reschedule them.
