SLA

Please feel free to submit new product enhancement ideas. Our Product Owners will review your ideas periodically and let you know personally if your Idea has been scheduled for development.

Unfortunately, it is not possible to pick up every Idea and not every Idea will receive a reply.

Make sure you also vote on Ideas that you want to see in the product, as we will take this into account when deciding on which ideas to implement.

If you have an immediate need for a feature please submit a Change Request (https://discover.claromentis.com/forms/changes) instead.

Short summary of idea*

Display Time AND Date on Calendar Page Components

Application/Area

Pages

Description

When adding a calendar to a page via the "Mini Calendar" or "Calendar Event Component" components, there is no way to view both the date and time of the event without requiring a user to click at least once. Particularly on the "Calendar Event Component" this feels like it should be displayed inline with the date of the event displayed just below the title.
