Please feel free to submit new product enhancement ideas. Our Product Owners will review your ideas periodically and let you know personally if your Idea has been scheduled for development.

Unfortunately, it is not possible to pick up every Idea and not every Idea will receive a reply.

Make sure you also vote on Ideas that you want to see in the product, as we will take this into account when deciding on which ideas to implement.

If you have an immediate need for a feature please submit a [Change Request \(https://discover.claromentis.com/forms/changes\)](https://discover.claromentis.com/forms/changes) instead.

Short summary of idea*

Allow Groups to be used for Org Chart

Application/Area

OrgChart

Description

We have multiple managers/directors that oversee different groups of people. Each having different structures. For example. Deana Kahle is the Executive Director and oversees employees and contractors. I want to make two separate org charts. One for independent contractors and one for employees without the contractors. It would be great if I could distinguish the groups in the org chart set up so I don't have to include the independent contractors. I know you can exclude people but it will take me a while to exclude 100 contractors by name.
