Option to Exclude Icon for Policies

Application/Area

Policy Manager

Description

We have thousands of documents that will migrate into the Policy Manager. There are no images associated with these documents. I received some custom CSS that worked when added to my theme (see below), but agree that this would be a useful component-level improvement.

custom CSS:

```
.policy-component .policy-component-row .media-object {  
display: none;  
}
```
