Please feel free to submit new product enhancement ideas. Our Product Owners will review your ideas periodically and let you know personally if your Idea has been scheduled for development.

Unfortunately, it is not possible to pick up every Idea and not every Idea will receive a reply.

Make sure you also vote on Ideas that you want to see in the product, as we will take this into account when deciding on which ideas to implement.

If you have an immediate need for a feature please submit a [Change Request \(https://discover.claromentis.com/forms/changes\)](https://discover.claromentis.com/forms/changes) instead.

## Short summary of idea\*

Clone Calendar Events

## Application/Area

Calendar

## Description

We'd love to save time on building calendar items by having the option to clone them. Recurrence only allows scheduling at a specific cadence.

Our use: Provider On-Call Schedule. Any event may have details that are needed again (provider name, contact preferences, any special notes about their shift), but won't occur on a standard recurrence. It would help us avoid errors by being able to clone.
