Enhanced Calendar Recurrence

Application/Area

Calendar

Description

I would love to see the recurrence options improved to provide more specificity. While I use a holiday as an example, we would apply this to healthcare observances honored at our facility that have clear patterns.

Example: in the U.S. we celebrate Labor Day.
Labor Day in 2026 is 9/7/26.
Labor Day in 2027 is NOT on 9/7/27.
It is always the first Monday of September.

The option to specify either a specific date it recurs or the specific PATTERN it recurs on (every year, first Monday) would allow us to set and forget so many events.
