Please feel free to submit new product enhancement ideas. Our Product Owners will review your ideas periodically and let you know personally if your Idea has been scheduled for development.

Unfortunately, it is not possible to pick up every Idea and not every Idea will receive a reply.

Make sure you also vote on Ideas that you want to see in the product, as we will take this into account when deciding on which ideas to implement.

If you have an immediate need for a feature please submit a [Change Request \(https://discover.claromentis.com/forms/changes\)](https://discover.claromentis.com/forms/changes) instead.

### Short summary of idea\*

Open new tab for links used in Events

### Application/Area

Events

### Description

The primary goal for events is to have people enroll, but there may be a reason to supply reference links. The current editor in Events is defaulted to opening links in the SAME tab, disrupting that conversion.

Ticket: 054791 describes a few of the ideas I had including:

- 1) use CK editor in Events
- 2) impact code at the system level that would default link behavior
