Please feel free to submit new product enhancement ideas. Our Product Owners will review your ideas periodically and let you know personally if your Idea has been scheduled for development.

Unfortunately, it is not possible to pick up every Idea and not every Idea will receive a reply.

Make sure you also vote on Ideas that you want to see in the product, as we will take this into account when deciding on which ideas to implement.

If you have an immediate need for a feature please submit a [Change Request \(https://discover.claromentis.com/forms/changes\)](https://discover.claromentis.com/forms/changes) instead.

**Short summary of idea\***

Use Metadata to refine items appearing in News widget

**Application/Area**

News

**Description**

In addition to channel, leverage News metadata to further filter what appears in a News widget. For example you could have a piece of metadata for Region from which news originates, then you could use it in the widget to show Channel ABC from XYZ Region. This would help manage large volumes of News with fewer channels.
