Please feel free to submit new product enhancement ideas. Our Product Owners will review your ideas periodically and let you know personally if your Idea has been scheduled for development.

Unfortunately, it is not possible to pick up every Idea and not every Idea will receive a reply.

Make sure you also vote on Ideas that you want to see in the product, as we will take this into account when deciding on which ideas to implement.

If you have an immediate need for a feature please submit a [Change Request \(https://discover.claromentis.com/forms/changes\)](https://discover.claromentis.com/forms/changes) instead.

## Short summary of idea\*

Bulk update existing InfoCapture forms & trigger/automatic changes

## Application/Area

Infocapture

## Description

Hi,

Right now, updating fields or triggers in InfoCapture forms means editing each existing project manually. Could we get a bulk edit option or the ability to update templates centrally and push changes to all linked forms? That would save massive amounts of time and keep everything consistent across projects.
