

## Announcements: Notifications

We will provide an overview of all available notifications from the [Announcements](#) application.

Templates for each language can be viewed and [edited](#) from **Admin > System > Localisation > Edit templates > Announcements**.

The screenshot shows the Admin interface for 'Edit notifications'. The breadcrumb trail is 'Admin > System > Localisation > Edit notifications'. The page title is 'Edit notifications' with a subtitle 'Select a module to localise'. There are three sections: 'System', 'Announcements', and 'Digital Assets Manager'. Each section has a list of languages: English, French, Spanish, Polish, and Kurdish. The 'Announcements' section is highlighted with a red box. Below the 'Announcements' section, there are two more sections: 'Digital Assets Manager' and 'Audit manager', each with the same list of languages.

### Notification not sending?

**Remember:** The type of notification received by users, e.g. email, in-system, none, etc will depend on their preferences as outlined [here](#).

If a notification is not evident, check the recipient's preferences are correct to receive this as they would expect first.

### **announcements.it\_is\_announced**

This notification will be triggered by the creator of an announcement if they select 'Send email to targeted users'.

The users/roles/groups entered into the 'targeted users' will receive this.
