

Audit Manager: Notifications

We will provide an overview of all available notifications from the [Audit Manager application](#).

Templates for each language can be viewed and [edited](#) from **Admin > System > Localisation > Edit templates > Audit Manager**

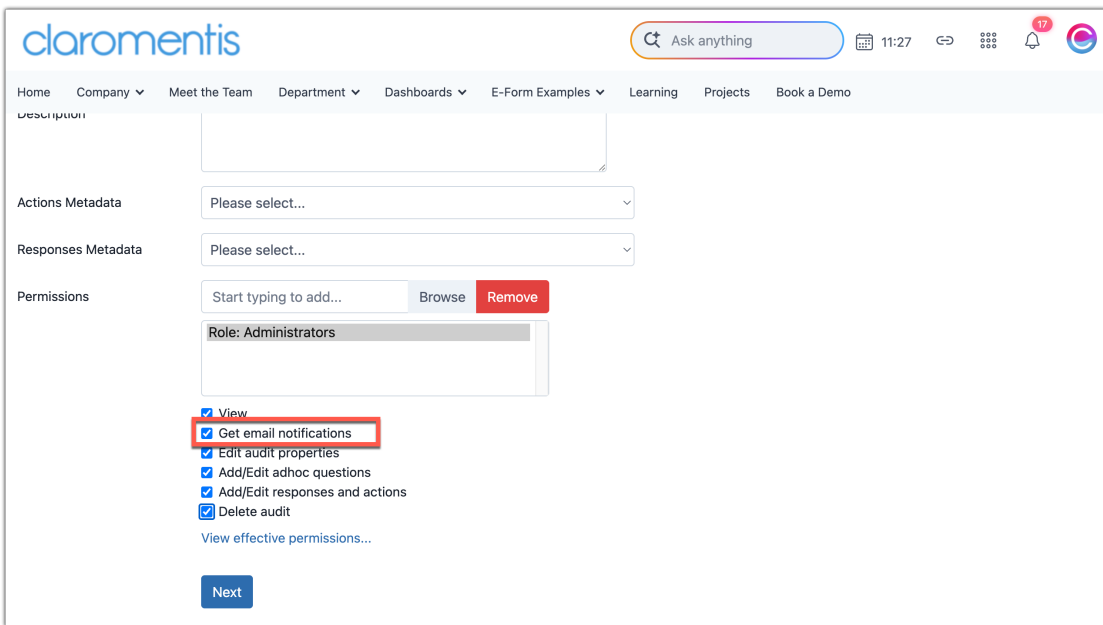

Notification not sending?

Remember: The type of notification received by users, e.g. email, in-system, none, etc will depend on their preferences as outlined [here](#).

If a notification is not evident, check the recipient's preferences are correct to receive this as they would expect first.

All the notifications detailed here are sent to users that have been given 'get email notifications' permission in an audit, as determined by the audit creator:

audit.action_new

This will trigger when a new action is created in an audit.

audit.action_update

This will trigger when an action has been edited.

audit.audit_new

This will trigger when a new audit has been created.

audit.audit_update

This will trigger when an audit has been edited.

audit.action_stage

This will trigger when an action has changed stage.

audit.actions_progress

This will trigger when all actions in the audit have been completed.

audit.audit_stage

This will trigger when the audit stage changes.

audit.response_progress

This will trigger when a score has been added to audit.
