

Discuss: Notifications

We will provide an overview of all available notifications from the [Discuss application](#).

Templates for each language can be viewed and [edited](#) from **Admin > System > Localisation > Edit templates > Discuss**

The screenshot shows the Claromentis Admin interface. The top navigation bar includes the logo, a search bar with 'Ask anything', the time '13:28', and several utility icons. The main content area is divided into sections for different applications. The 'Discuss' section is highlighted with a red border and contains a list of languages for which templates can be viewed and edited. The 'Documents' section is also visible below it.

Application	Language
Discuss	French
	Spanish
	Polish
	Kurdish
	English
	U.S. International
	German
	Dutch
	Greek
	Hungarian
	Russian
	Portuguese (Brazil)
Documents	English
	French
	Spanish
	Polish
	U.S. International
	German

Notification not sending?

Remember: The type of notification received by users, e.g. email, in-system, none, etc will depend on their preferences as outlined [here](#).

If a notification is not evident, check that the recipient's preferences are set to receive this as they would expect first.

[Browse our guides on the Discuss application here](#)

discuss.discussion.added

discuss.discussion.updated

This notification will be sent when the option below has been enabled in an existing Topic, or if a new Topic was created with the option enabled.

The recipients will be the users/roles/groups included in the Topic with at least 'contribute' rights.

The wording sent will depend on whether the Topic is new or old.

Notifications Send a notification to Users who can view this Discussion

You can include (optional) Notification content here.

[Create Discussion](#) [Cancel](#)

discuss.discussion.commentadded

This notification will fire when a new post is created in a Topic.

It will be sent to those with 'admin' rights and any user subscribed to the Topic.
