Notification not sending?

Remember: The type of notification received by users, e.g. email, in-system, none, etc will depend on their preferences as outlined [here](#).

If a notification is not evident, check that the recipient's preferences are correct to receive this as they would expect first.

hr.invite

This notification is triggered after users are included in the tool via the 'users & access' area by an administrator.

It is an invitation to set up their HR tool passcode and will be received by anyone included there.

hr.password.reset

This notification will fire when a user follows the 'forgotten passcode?' procedure when logging in to the tool.

hr.notification

Will be sent if a HR notification has been set up by administrators as detailed [here](#).

hr.reminder

Will be sent if a HR tool reminder has been set up by administrators as detailed [here](#).
