[Uzbek](#)

Notification not sending?

Remember: The type of notification received by users, e.g. email, in-system, none, etc., will depend on their preferences as outlined [here](#).

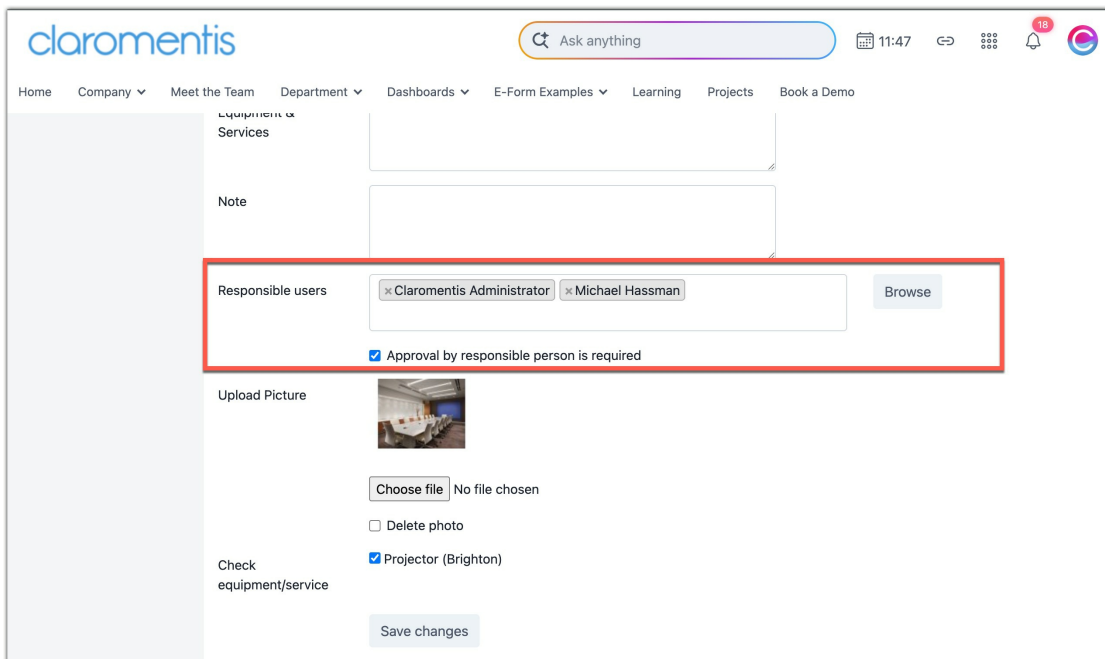

If a notification is not evident, check that the recipient's preferences are set to receive this as they would expect first.

Browse our guides on the Room Booking application [here](#)

Rooms

rooms.rb_confirmation

This notification will fire when a booking made for a Room that requires approval has been either confirmed or rejected by a designated approver. The recipient is the user who made the booking.
