Notification not sending?

Remember: The type of notification received by users, e.g. email, in-system, none, etc., will depend on their preferences as outlined [here](#).

If a notification is not evident, check that the recipient's preferences are set to receive this as they would expect first.

[Browse our guides on the Thank You application here](#)

thankyou.new_thanks

This notification will fire when a new Thank You post has been made by a user. The recipients will be each user thanked, whether this is individually, in multiples or via [a Role or Group](#) they are in.

thankyou.new_thanks_manager

This notification relies on the 'notify line manager' option being enabled on the admin side of Thank You by an application administrator.
