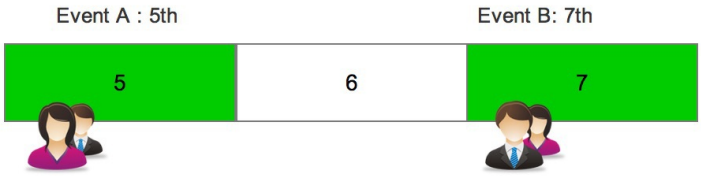
Recurring Events vs Multi-day Events

When planning your events in Events module, you may need to consider that Recurring events is not the same as Multi-day events.

Here is an illustration to highlight the differences:

RECURRING EVENTS

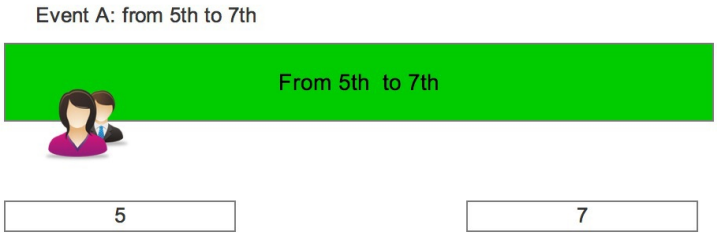
Recurring event creates 2 separate individual events which are forming a sequence.



Example of recurring events which are on the 5th and 7th

MULTI-DAY EVENTS

Multi-day events are event that span across multiple-days



Event A starts on the 5th and finishes on the 7th but you may want to indicate if there are no event on the 6th
