Embed Facebook Feed into Pages

Overview

How to embed your Facebook page timeline using Embed Component on Pages (available from Claromentis 8.2).

Step 1

Go to

Facebook Page Plugin

Please note that you can only embed feed from Facebook Pages, such as company or organisation pages on Facebook and not your personal feed.

Step 2

Enter the Facebook Page URL you wish to embed, see example below.

Width: 280 if you wish to fit the embed into a single column.

Facebook Page URL:

Width:

Use Small Header:

Hide Cover Photo:

Tabs:

Height:

Adapt to plugin container width:

Show Friend's Faces:

What if I can't see the preview?

Please make sure the Page doesn't have any restriction at all. For example **age** or **location** restriction.

On Facebook Page, navigate to **Settings** and check the restriction as shown below

The screenshot shows the Facebook Page Settings interface. The 'Settings' tab is selected. In the left-hand menu, 'Country restrictions' and 'Age restrictions' are highlighted with a red box. The main content area shows the following settings:

- Page visibility:** Page published (selected), Page unpublished [?]
- Visitor posts:** Anyone can publish to the Page. Anyone can add photos and videos to the Page.
- Post and story sharing:** Post sharing to stories is on.
- Audience optimisation for posts:** The ability to select News Feed targeting and restrict the audience for your posts is turned off.
- Messages:** People can contact my Page privately.
- Tagging ability:** Only people who help manage my Page can tag photos posted on it.
- Others tagging this Page:** People and other Pages can tag my Page.
- Page location for effects:** Other people can use your Page's location for photo and video frames and effects.
- Country restrictions:** Page is visible to everyone. (Highlighted with a red box)
- Age restrictions:** Page is shown to everyone. (Highlighted with a red box)
- Page moderation:** No words are being blocked from the Page.
- Profanity filter:** Turned off.
- Similar Page suggestions:** Choose whether your Page is recommended to others.
- Page updates:** Page posts are automatically published when you update Page info, reach milestones, receive reviews and more.
- Post in multiple languages:** Ability to write posts in multiple languages is turned off.
- Translate automatically:** Your posts may show translations automatically for people who read other languages.
- Comment ranking:** Most relevant comments are shown for my Page by default.
- Content distribution:** Downloading to Facebook is allowed.
- Download Page:** Download Page.
- Merge Pages:** Merge duplicate Pages.
- Remove Page:** Delete your Page.
- Live Commentary:** People can go live in a watch party when one of your videos is playing.

After removing your page restriction, please retry to re-enter the URL in the plug-in and you should now be able to see the preview and generate code.

Step 3

Click "Get the code"

Choose IFrame Tab and select App ID, if you don't have App ID you may have to [Create an App ID](#) first with your Facebook Account.

Javascript SDK **IFrame**

Step 1: Choose your App ID

claromentis

This app is in **Development Mode** and not available publicly.
Public Mode can be enabled in the App Dashboard.

Step 2: Place this code wherever you want the plugin to appear on your page.

```
<iframe src="https://www.facebook.com/plugins/page.php?
href=https%3A%2F%2Fwww.facebook.com%2Fclaromentis%2F&tabs=timeline&width=280&h
ight=500&small_header=true&adapt_container_width=true&hide_cover=false&show_fac
epile=true&appId=631027116915021" width="280" height="500"
style="border:none;overflow:hidden" scrolling="no" frameborder="0"
allowTransparency="true"></iframe>
```

Step 4

Copy the code and paste it on your page by selecting **Embed Component**

Settings

Title: Facebook

Type: Code Video Site (iframe)

Paste embed code here

```
style="border:none;overflow:hidde
n" scrolling="no" frameborder="0"
allowTransparency="true">
</iframe>
```

Submit

Embed

Troubleshooting

4 April 2022

Some users reported that when they're logged on to Facebook, the Page news feed is showing a message:

"Sorry, something went wrong - Please try closing and re-opening your browser window."

The workaround is by logging out of Facebook in the browser and you will be able to see the public news feed, alternatively, you can simply create a link to your Facebook Page directly (and without requiring an embed) via a menu item, image or Button in your Intranet.

[This issue](#) has been reported to Meta's developer network and awaiting resolution.
