

Embed Google Docs, Sheets or Slides to Pages

Overview

You can make a Google document, spreadsheet, presentation, or form available to view on a Page by using Embed component.

Step 1

1. Open a file in Google Docs, Sheets, or Slides.
2. At the top, click File and then Publish to the web.

3. In the window that appears, click **Link**.
4. Copy the link

Step 2

Using **Embed** Component, choose **Site (Iframe)**

Paste the link into web address field

Embed

Settings

Title

Google Spreadsheet

Type

☐ Code

☐ Video

☒ Site (iframe)

Web address.

Note, some sites cannot be shown in iframe

https://docs.google.com/spreadsh

☒ Allow scroll

Submit
