

## Embed a Google Map on a Page

Embed custom Google Map locations onto Intranet pages using the embed component.

### 1. Obtain embed code from Google Maps

- Search for a location and click 'share' or click 'Share' on a [custom map](#) you have already saved.

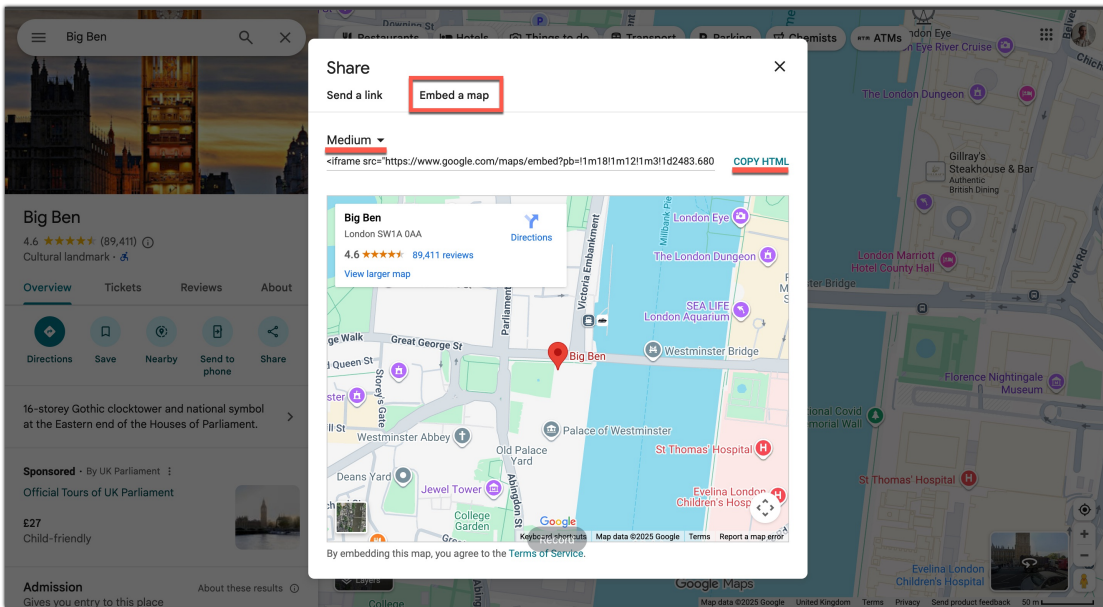

Custom maps allow you to add markers for desired locations and can be a nice visual way to give information to users.

- Click the 'embed a map' option

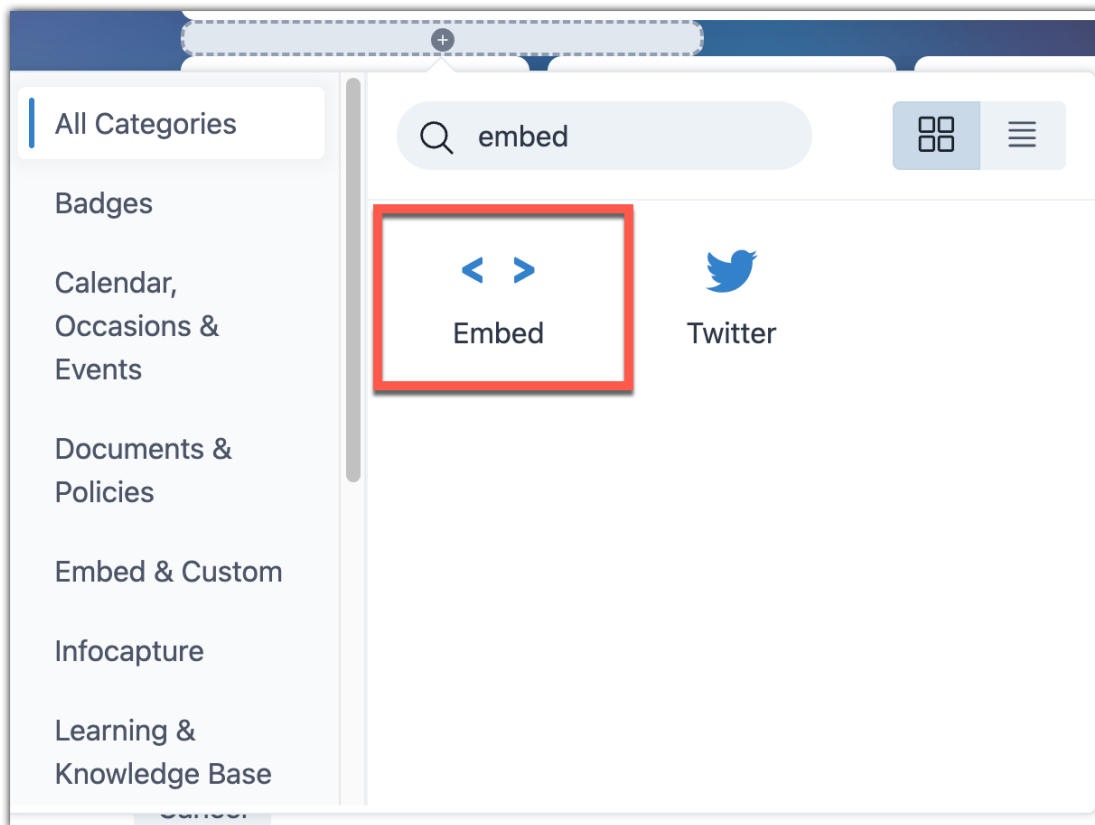

- Set the size of the map.

- Click 'COPY HTML' once ready.

## 2. Add this to an Intranet page

- In Claromentis, [edit the page](#) you want to add the map to
- Add the embed component to the page

- In the 'code' section, paste the link you copied from Google Maps
