

News: Overview

Requirements

This user guide is for anyone on Claromentis 8.2+

Overview

This video provides a quick overview of the front end of the news application, giving context to what is available from the application as a standard user

Steps

1. Accessing the news application will allow you to view through all news articles that you have permissions to.
 2. There's a variety of ways to search for a specific article; Using keywords mentioned in the article, filter through the available news channels, select the year and month the article was posted and the tag cloud
 3. Selecting an article will allow you to read it in its entirety and post a comment to the article if this has been enabled
