

Deleting a News Article

We will cover how articles can be deleted and recovered using the trash can feature in the News application.

Deletion can be carried out from both the front-end and the back end of the system.

- Delete a news article from the front-end
- Restore a news article from the front-end
- Delete a news article from the admin side
- Restore a news article from the admin side
- Permanently delete a news article

The below steps are outlined in the video above.

Delete a news article from the front-end

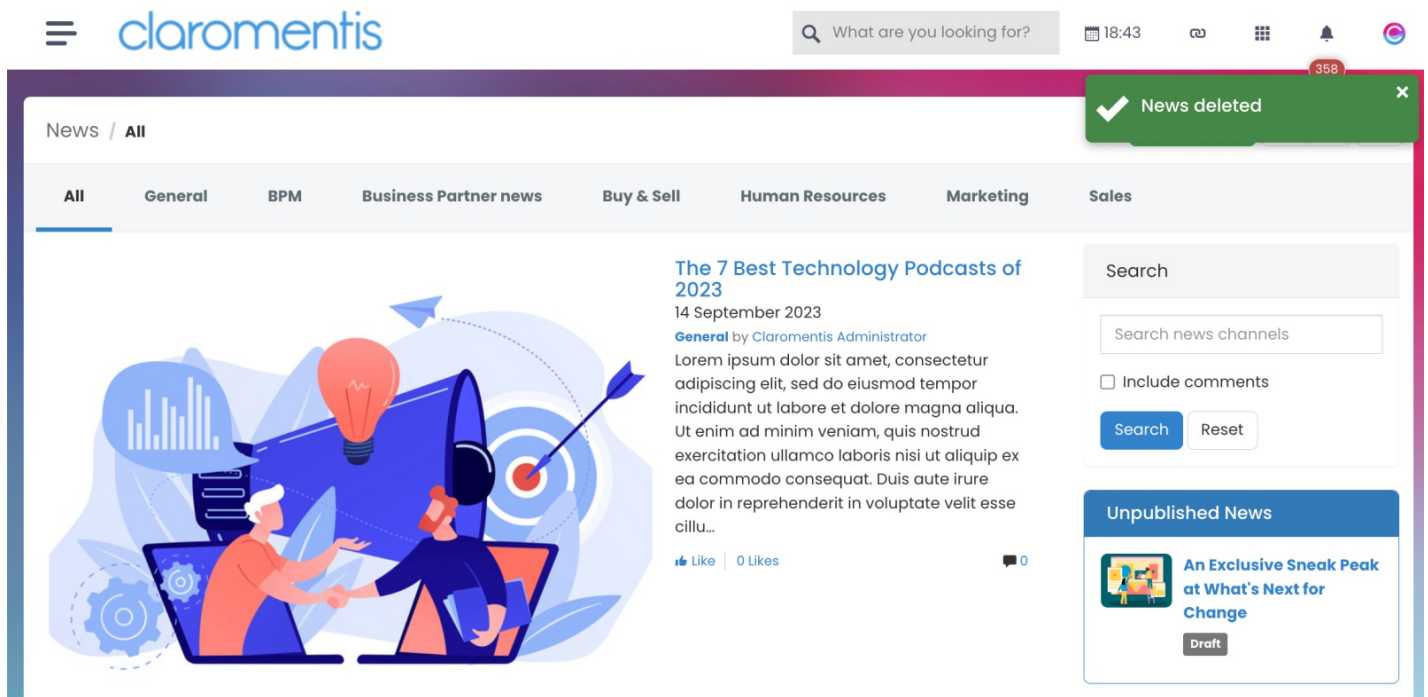

With the correct permissions, news articles can be deleted from the front-end of the News application.

1. Navigate to **Application > News**, and select the news article you wish to delete.
2. Click the **Edit** (pencil) icon.

Reminder: If you do not see the Edit option, please check with your administrator that you have the permission needed to do so.

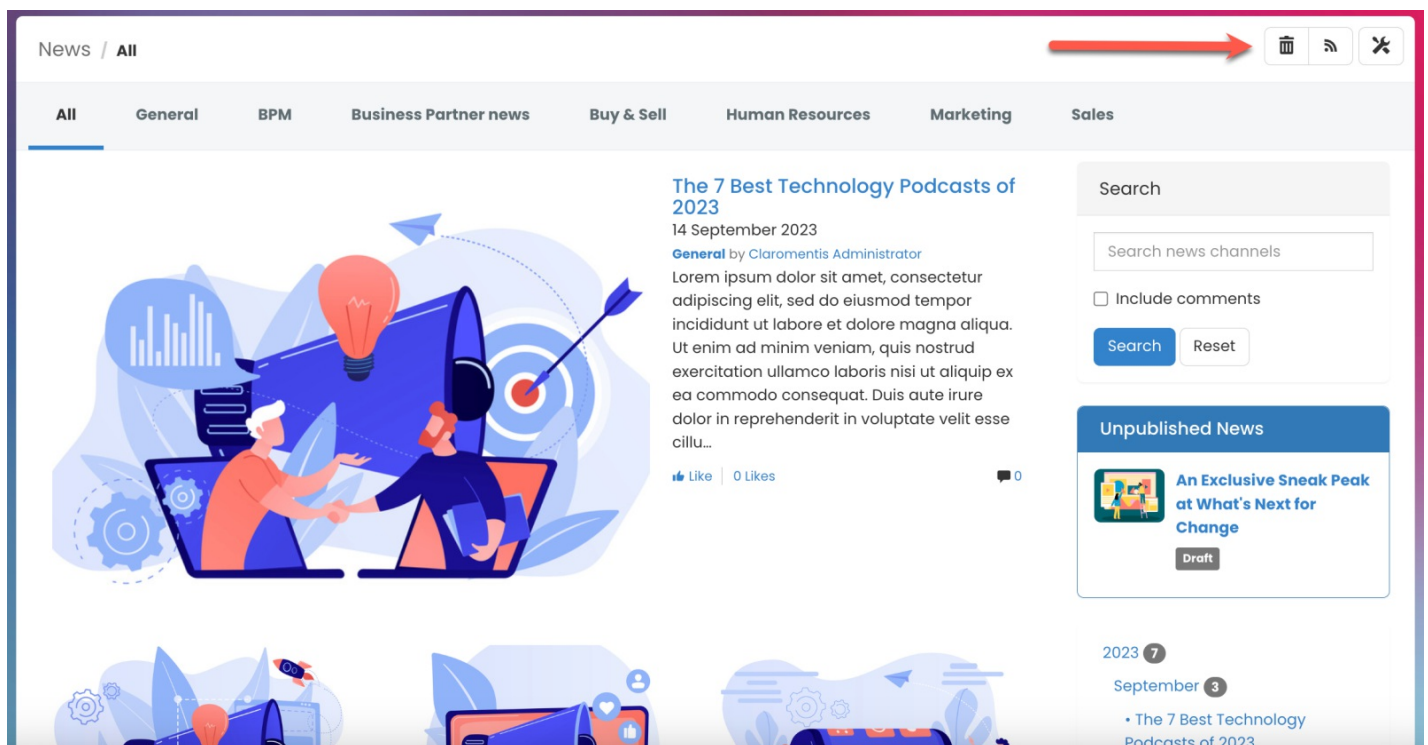

3. Select **Delete**.

Restore a news article from the front-end

When deleting a news article, the content will automatically moved to the **Trash can** where you can view all your previously deleted articles.

1. Navigate to **Application > News**.
2. Click on the **Trash can** icon to view all news articles that have been deleted from the front-end.

3. To restore a deleted article, check the article and use the **Restore selected** option.

Any articles that have been checked will be restored and viewable again from the front-end of the News application.

Restore a news article from the admin side

When deleting a news article, the content will automatically moved to the **Trash can** where you can view all your previously deleted articles.

1. Navigate to **Application > News**.

2. Click on the **Trash can** icon to view all news articles that have been deleted from the admin side.

The screenshot shows the 'Admin / News' interface. In the left sidebar, the 'Trash can' option is highlighted with a red box. The main content area displays a list of news articles that have been deleted. The list includes columns for Title, Date, Language, News channel, Status, and Creator. A red button labeled 'Delete selected' is at the bottom.

3. Similar to the front-end trash can, check the article and use the **Restore selected** option.

Any articles that have been checked will be restored and placed in the original location.

The screenshot shows the 'Admin / News / Trash can' interface. It displays a list of objects deleted from the admin panel. A red box highlights the checkbox for the first item, 'September Updates'. A red arrow points to the 'Restore selected' button at the bottom.

Reminder: Any deleted items that have been in the trash can for more than 30 days will be automatically deleted.

Permanently delete a news article

News articles that are left in the Trash can for more than 30 days will be automatically deleted.

You can permanently delete a news article from your system before the 30-day timeframe, if you wish.

- 1. Head to the **Trash can** to permanently delete a news article.
- 2. Check the news you wish to delete and **Delete completely**.
