

Deleting a News Article

We will cover how articles can be deleted and recovered using the trash can feature in the News application.

Deletion can be carried out from both the front-end and the back end of the system.

- [Delete a news article from the front-end](#)
- [Restore a news article from the front-end](#)
- [Delete a news article from the admin side](#)
- [Restore a news article from the admin side](#)
- [Permanently delete a news article](#)

The below steps are outlined in the video above.

Delete a news article from the front-end

With the correct permissions, news articles can be deleted from the front-end of the News application.

1. Navigate to **Application > News**, and select the news article you wish to delete.
2. Click the **Edit** (pencil) icon.

Reminder: If you do not see the Edit option, please check with your administrator that you have the permission needed to do so.

3. Select **Delete**.

Link
For external Links include the whole path. E.g. https://www.claromentis.com. For internal links use a relative path E.g. /intranet/gallery/

Comments Enable Disable

←

4. You will be prompted to confirm the deletion.

Click **OK** to confirm.

The screenshot shows a web application interface with a confirmation dialog box. The dialog box is titled "ronnie-thirteen-demo.myintranet.com says" and contains the text "Are you sure you want to delete this?". There are two buttons: "Cancel" and "OK". A red arrow points to the "OK" button. The background shows a news article editor with a "Content" section containing a rich text editor toolbar and a "Link" section with a text input field containing "https://www.claromentis.com/blog/why-online-collaboration-is-important/". Below the link field is a "Comments" section with radio buttons for "Enable" (selected) and "Disable", and three buttons: "Submit", "Save as draft", and "Delete".

The news article will be deleted and no longer accessible from the front-end of the application.

Restore a news article from the admin side

When deleting a news article, the content will automatically moved to the **Trash can** where you can view all your previously deleted articles.

1. Navigate to **Application > News**.

2. Click on the **Trash can** icon to view all news articles that have been deleted from the admin side.

The screenshot shows the 'Admin / News' interface. The sidebar on the left contains several menu items: 'News', 'Channels & Templates', 'Metadata' (with a note 'metadata admin rights required'), 'Trash can' (highlighted with a red box), 'Export news channels as RSS', and 'RSS for public news'. The main content area shows a list of news articles with columns for Title, Date, Language, News channel, Status, and Creator. A search bar is at the top right, and a '+ Add news' button is in the top right corner. At the bottom of the list, there is a 'Delete selected' button.

3. Similar to the front-end trash can, check the article and use the **Restore selected** option.

Any articles that have been checked will be restored and placed in the original location.

The screenshot shows the 'Admin / News / Trash can' interface. The main heading is 'Objects deleted from admin panel'. Below it, there is a button 'Switch to objects from all users' and a blue banner stating 'Objects that have been in trash more than 30 days will be automatically deleted'. A table lists deleted objects with columns for Title, Type, Description, Date, Deleted by, and Original location. The first row, 'September Updates', is checked with a red box. Below the table, there are two buttons: 'Restore selected' (highlighted with a red arrow) and 'Delete completely'.

Title	Type	Description	Date	Deleted by	Original location
<input checked="" type="checkbox"/> September Updates	News item	Lorem ipsum dolor sit amet, consectetur adipiscing elit, sed do eiusmod tempor incididunt ut labore et dolore magna aliqua. Ut enim ad minim veniam, quis nostrud exercitation ullamco laboris nisi ut aliquip ex ea commodo consequat. Duis aute irure dolor in reprehenderit in voluptate velit esse cil...	14-09-2023 19:49	Administrator	General

Reminder: Any deleted items that have been in the trash can for more than 30 days will be automatically deleted.

Permanently delete a news article

News articles that are left in the Trash can for more than 30 days will be automatically deleted.

You can permanently delete a news article from your system before the 30-day timeframe, if you wish.

1. Head to the **Trash can** to permanently delete a news article.
2. Check the news you wish to delete and **Delete completely**.

The screenshot shows the 'News / Trash can' interface. At the top right, there is a '+ Add news' button and three icons: a trash can, a RSS feed, and a close icon. Below this is a light blue banner with the text: 'Objects that have been in trash more than 30 days will be automatically deleted'. The main content is a table with the following columns: Title, Type, Description, Date, Deleted by, and Original location. A single row is visible with the title 'Online Collaboration', type 'News item', and a detailed description. The 'Date' is '14-09-2023 18:43', 'Deleted by' is 'Claromentis Administrator', and 'Original location' is 'General'. A checkbox next to the title is checked and highlighted with a red box. Below the table, there are two buttons: 'Restore selected' and 'Delete completely'. A red arrow points to the 'Delete completely' button.

<input type="checkbox"/>	Title	Type	Description	Date	Deleted by	Original location
<input checked="" type="checkbox"/>	Online Collaboration	News item	Online collaboration tools have been a lifeline for businesses over the past 12 months.
