Deleting a News Article

We will cover how articles can be deleted and recovered using the trash can feature in the News application.

Deletion can be carried out from both the front-end and the back end of the system.

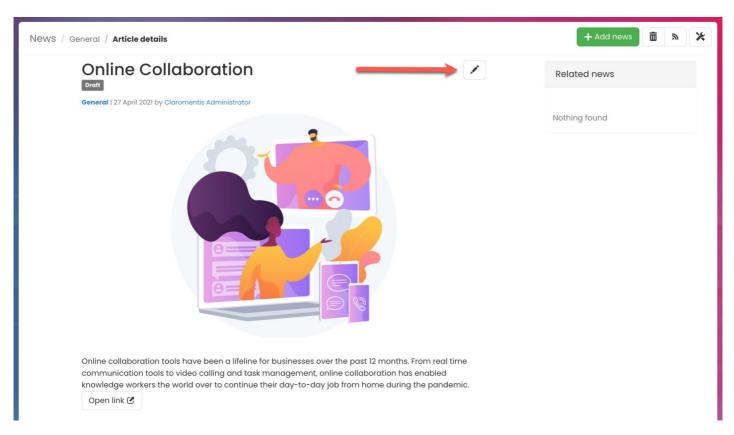

- Delete a news article from the front-end
- Restore a news article from the front-end
- Delete a news article from the admin side
- Restore a news article from the admin side
- Permanently delete a news article

The below steps are outlined in the video above.

Delete a news article from the front-end

With the correct permissions, news articles can be deleted from the front-end of the News application.

- 1. Navigate to **Application > News**, and select the news article you wish to delete.
- 2. Click the Edit (pencil) icon.

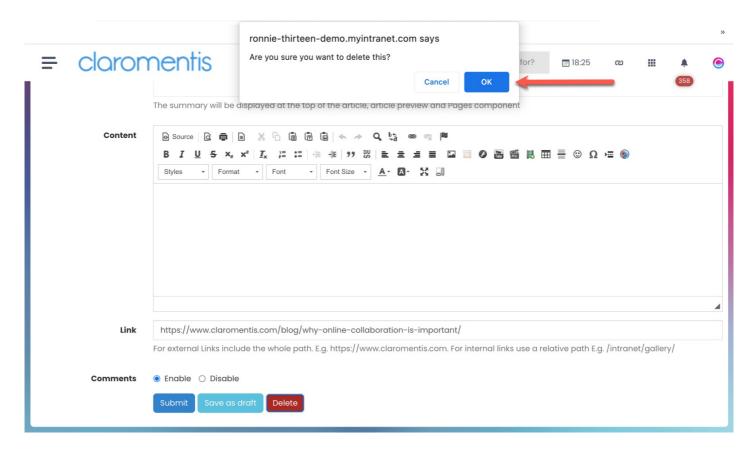

Reminder: If you do not see the Edit option, please check with your administrator that you have the permission needed to do so.

3. Select Delete.

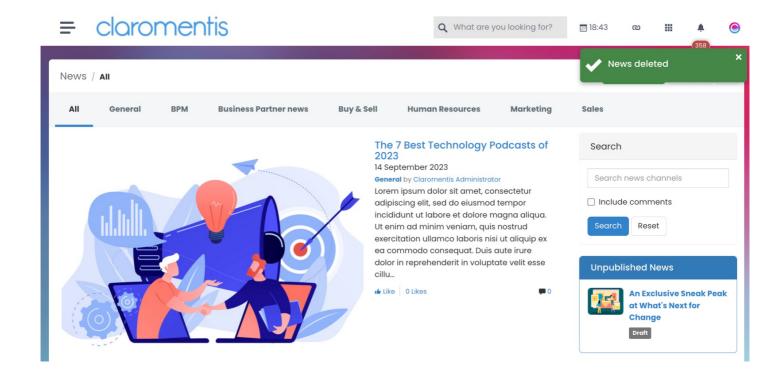

Link	https://www.claromentis.com/blog/why-online-collaboration-is-important/
	For external Links include the whole path. E.g. https://www.claromentis.com. For internal links use a relative path E.g. /intranet/gallery/
Comments	Enable
	Submit Save as draft Delete

4. You will be prompted to confirm the deletion.

Click **OK** to confirm.

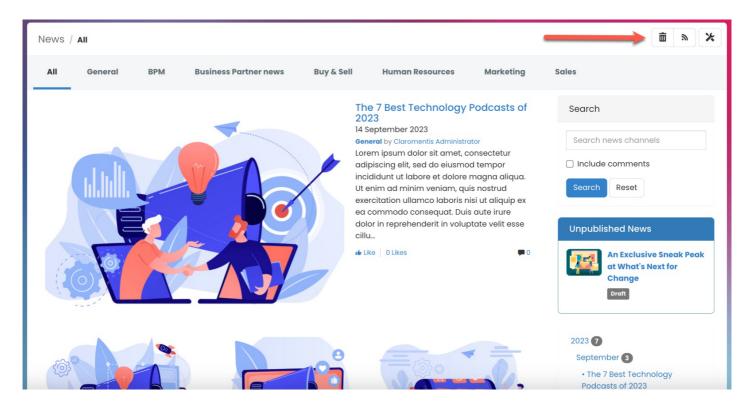

The news article will be deleted and no longer accessible from the front-end of the application.

Restore a news article from the front-end

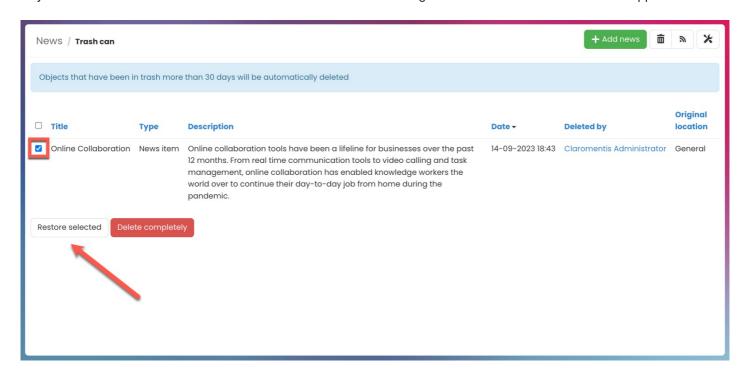

When deleting a news article, the content will automatically moved to the **Trash can** where you can view all your previously deleted articles.

- 1. Navigate to **Application > News**.
- 2. Click on the Trash can icon to view all news articles that have been deleted from the front-end.

3. To restore a deleted article, check the article and use the **Restore selected** option.

Any articles that have been checked will be restored and viewable again from the front-end of the News application.

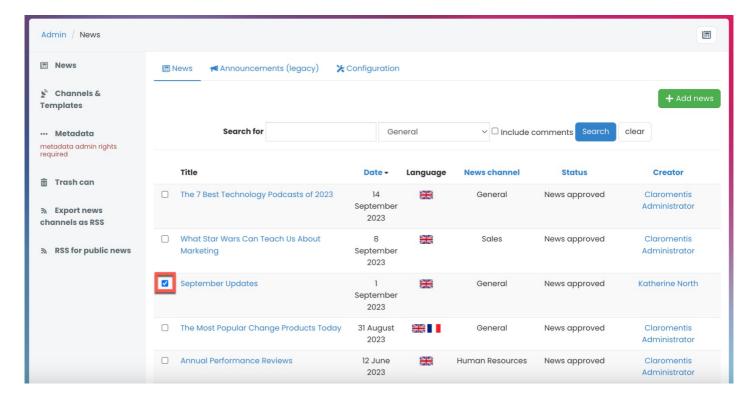

Reminder: Any deleted items that have been in the trash can for more than 30 days will be automatically deleted.

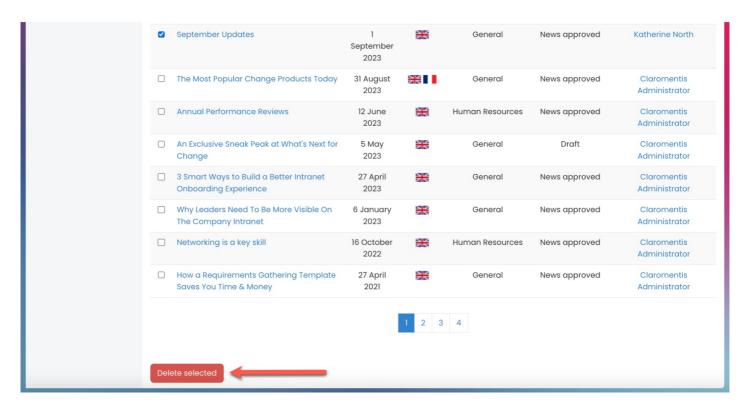

Delete a news article from the back end

As a News application admin, news articles can be deleted from the admin side of the News application.

- 1. Navigate to **Admin > News** to view a list of all existing news articles.
- 2. Check the news you wish to delete.

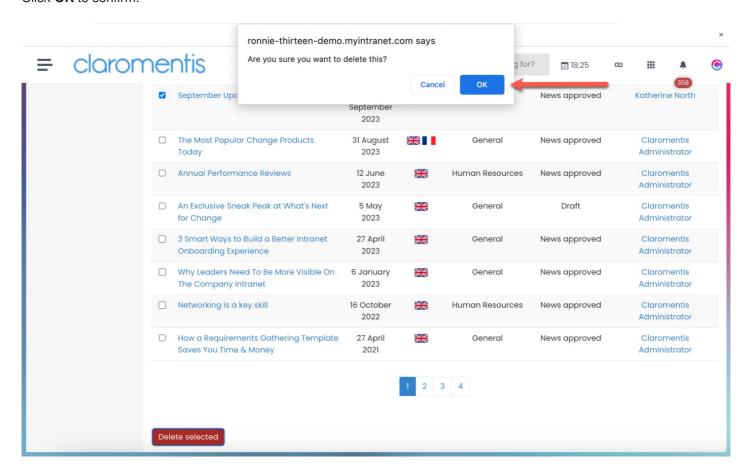

3. Select Delete.

4. You will be prompted to confirm the deletion.

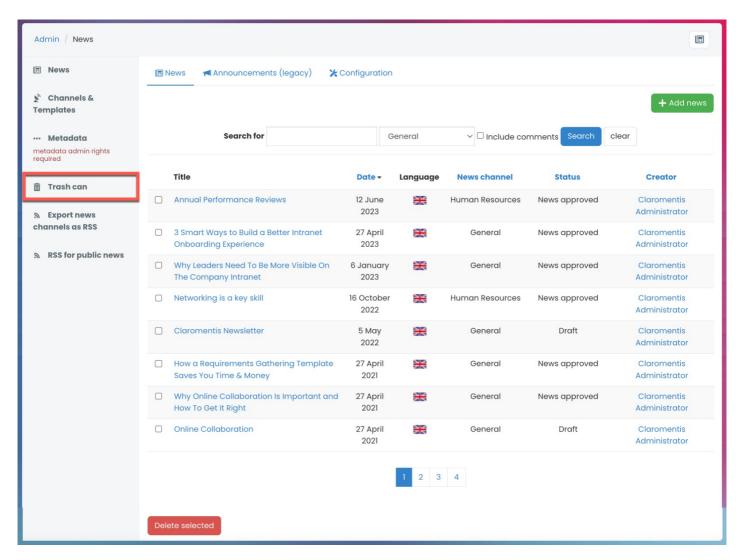

Click **OK** to confirm.

Restore a news article from the admin side

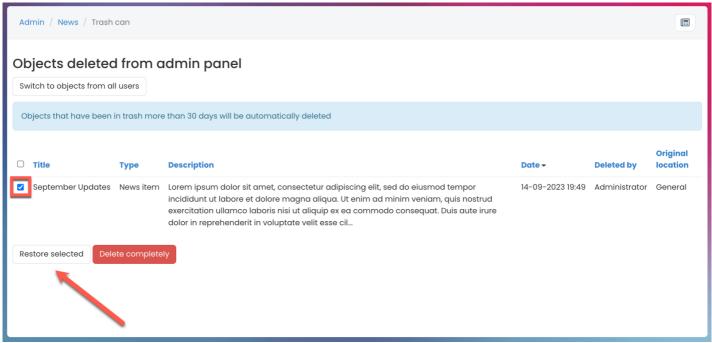

When deleting a news article, the content will automatically moved to the **Trash can** where you can view all your previously deleted articles.

- 1. Navigate to **Application > News**.
- 2. Click on the Trash can icon to view all news articles that have been deleted from the admin side.

3. Similar to the front-end trash can, check the article and use the **Restore selected** option.

Any articles that have been checked will be restored and placed in the original location.

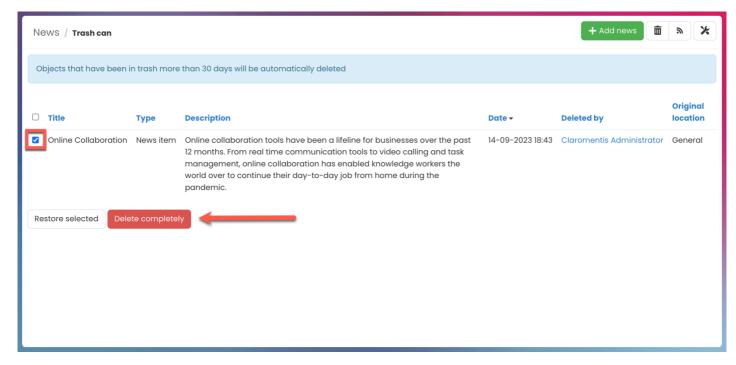

Reminder: Any deleted items that have been in the trash can for more than 30 days will be automatically deleted.

Permanently delete a news article

News articles that are left in the Trash can for more than 30 days will be automatically deleted.

You can permanently delete a news article from your system before the 30-day timeframe, if you wish.

- 1. Head to the **Trash can** to permanently delete a news article.
- 2. Check the news you wish to delete and Delete completely.

Reminder: News articles deleted from the Trash cannot be recovered.
