Pages Q & A (Online Drop-In Session)

This is a recording from the Claromentis Drop-In session on Friday the 2nd of March 2018

In this video we have an overview of the pages tool, showing how users on Claromentis 8.2 have the ability to configure their homepage and how to create a department page as well as sub-pages.

We will be hosting new drop-in sessions every 2 months showcasing different applications and uses of the Claromentis software.
