# Embed a Public Trello board

Please note that currently Trello does not allow to embed private board to a website for the security reasons but might be considered in the future. Read more...

Using embed component in Pages, it is possible to embed Trello Public Board here is how
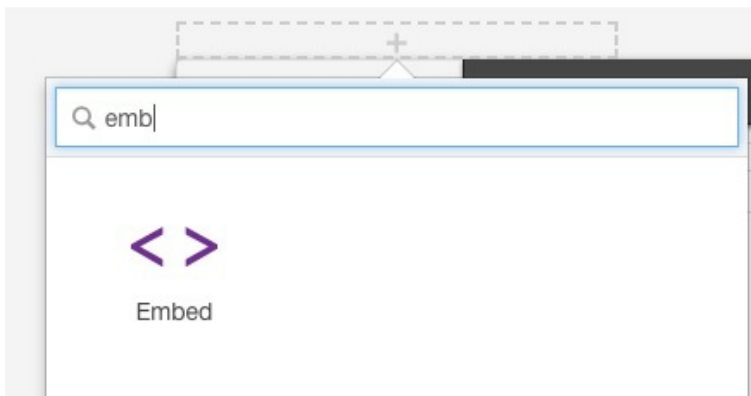

Step 1

From the browser, copy the URL

Step 2

In Claromentis, edit the page and find an Embed Component

Step 3

Select Type: **Site (iframe)**

and paste the URL, and remove the board name part of the URL and add .html

for example :

https://trello.com/b/OlkxiiYp/claromentis-public-board

to

https://trello.com/b/OlkxiiYp.html
