

## Snow Component

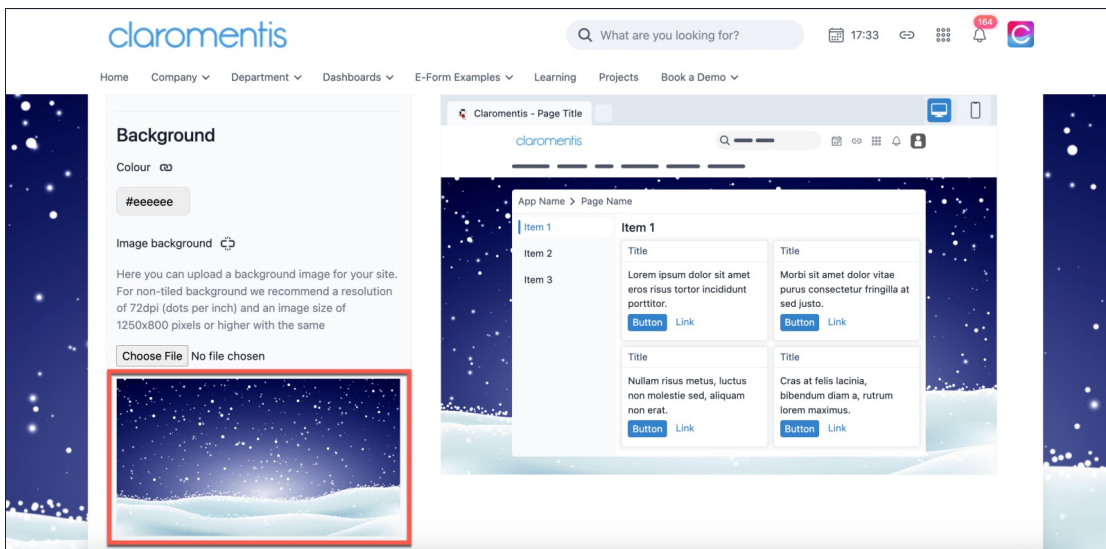

Christmas is upon us so why not jazz up your page with Snow Component and here is how.

Follow the 6-steps to implement the Snow feature

### Step 1: Download intranet background

Navigate to **Admin > Design**, and choose the appropriate theme or edit Master Design.  
In **Edit Style**, change the background image, which you can download below:

Download  
Background

### Step 2: Download the Snowfall custom component

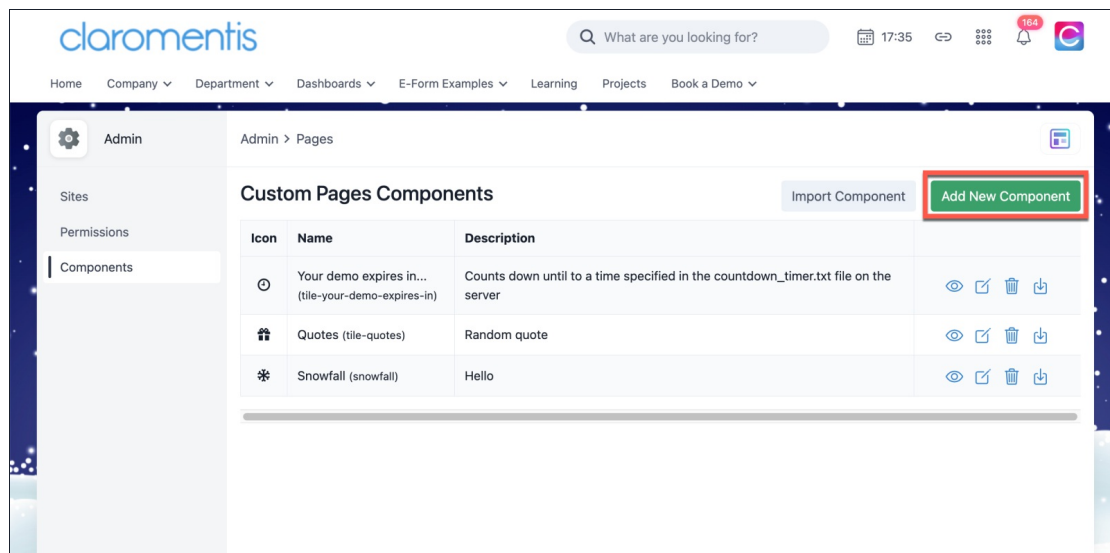

We have prepared a custom Snowfall component, which you can download below:

Download Snowfall  
Component

### Step 3: Install the Snowfall component

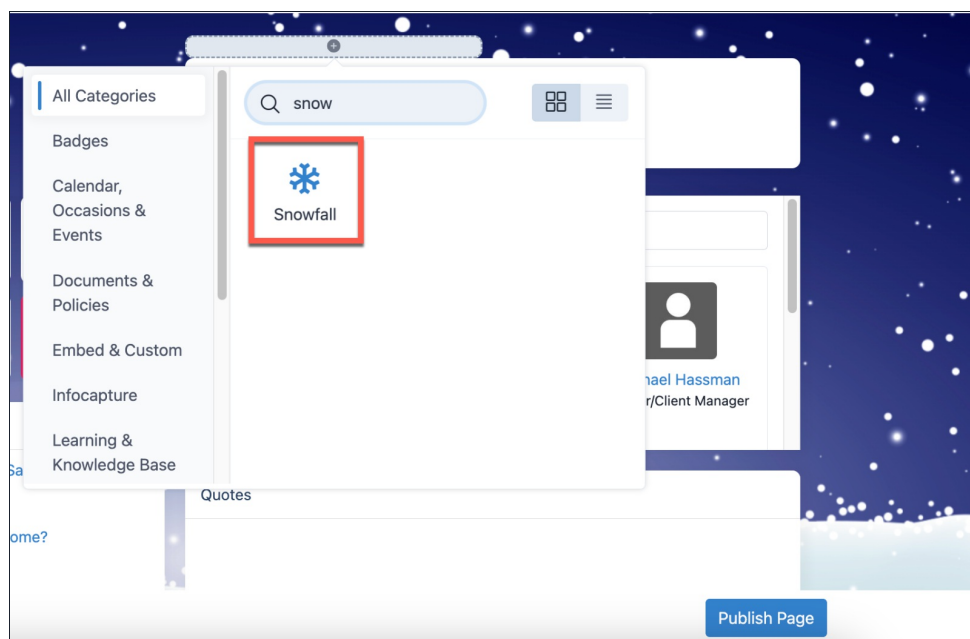

Navigate to **Admin > Pages > Component**.

Choose **Import component** to import the zip file that you have just downloaded.

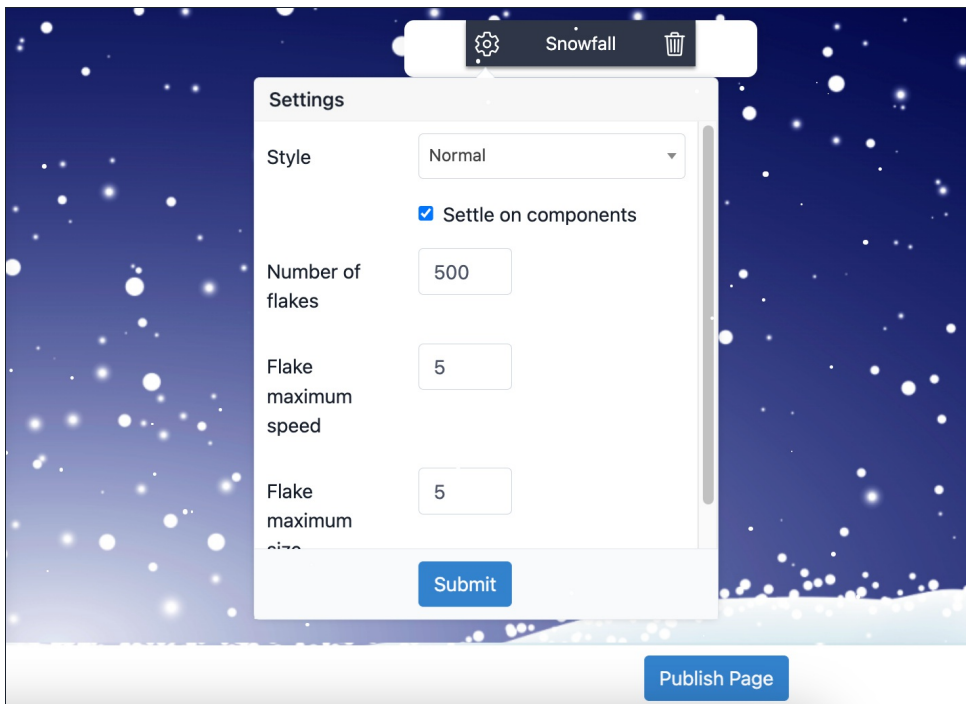

## Step 4: Adding Snowfall component to a homepage

Edit the homepage, and search for Snowfall to add the new component.

**Please note:** Performance of the component is optimal when placed at the top of a page

## Step 5: Configure the settings according to your preference

## Step 6: Publish the page

... and make your page a winter wonderland. Enjoy!
