# Snow Component

Christmas is upon us so why not jazz up your page with Snow Component and here is how.

> Follow the 6-steps to implement the Snow feature

Step 1: Download intranet background

Navigate to **Admin > Design**, and choose the appropriate theme or edit Master Design.
In **Edit Style**, change the background image, which you can download below:

[Download Background]

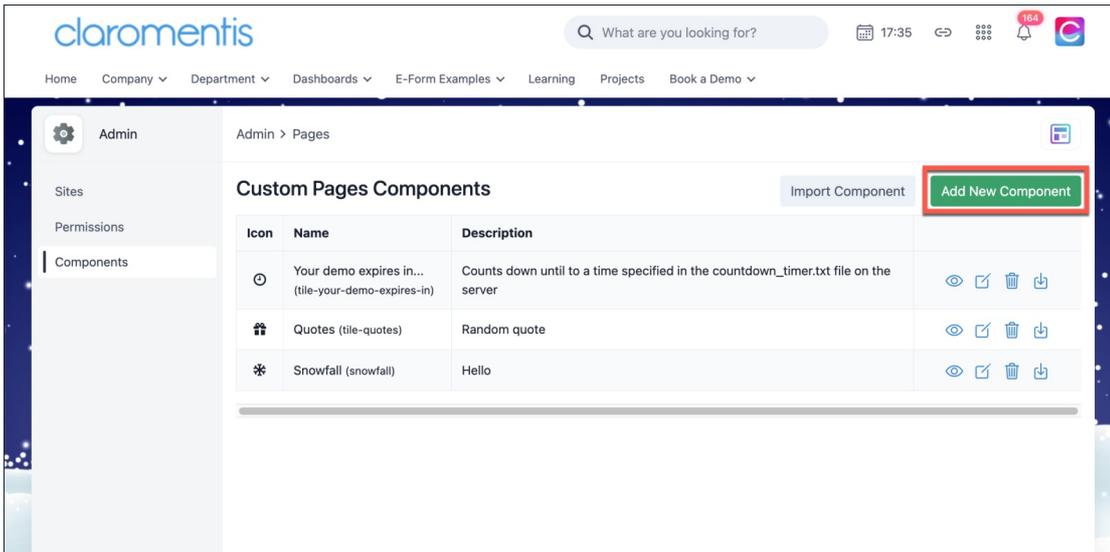

Step 2: Download the Snowfall custom component

We have prepared a custom Snowfall component, which you can download below:

[Download Snowfall Component]

## Step 3: Install the Snowfall component

Navigate to **Admin > Pages > Component.**

Choose **Import component** to import the zip file that you have just downloaded.

Step 4: Adding Snowfall component to a homepage

Edit the homepage, and search for Snowfall to add the new component.

Please note: Performance of the component is optimal when placed at the top of a page

Step 5: Configure the settings according to your preference

Step 6: Publish the page

... and make your page a winter wonderland. Enjoy!
