

Quiz: Overview

This guide will cover the admin side and front end of the Quiz application.

Admin side

An [application administrator](#) of Quiz can access the admin side (Applications > Admin > Quiz)

There is only one tab which holds the admin permissions:

Enter Users/Roles/Groups and assign the permissions as required:

- **View all statistics:** User(s) can view the reports (score, pass/fail ratio, etc.) of each quiz from the front end.
- **Manage own quizzes:** User(s) can add, edit & delete quizzes they created
- **Manage all quizzes:** User(s) can add, edit & delete all quizzes that have been created

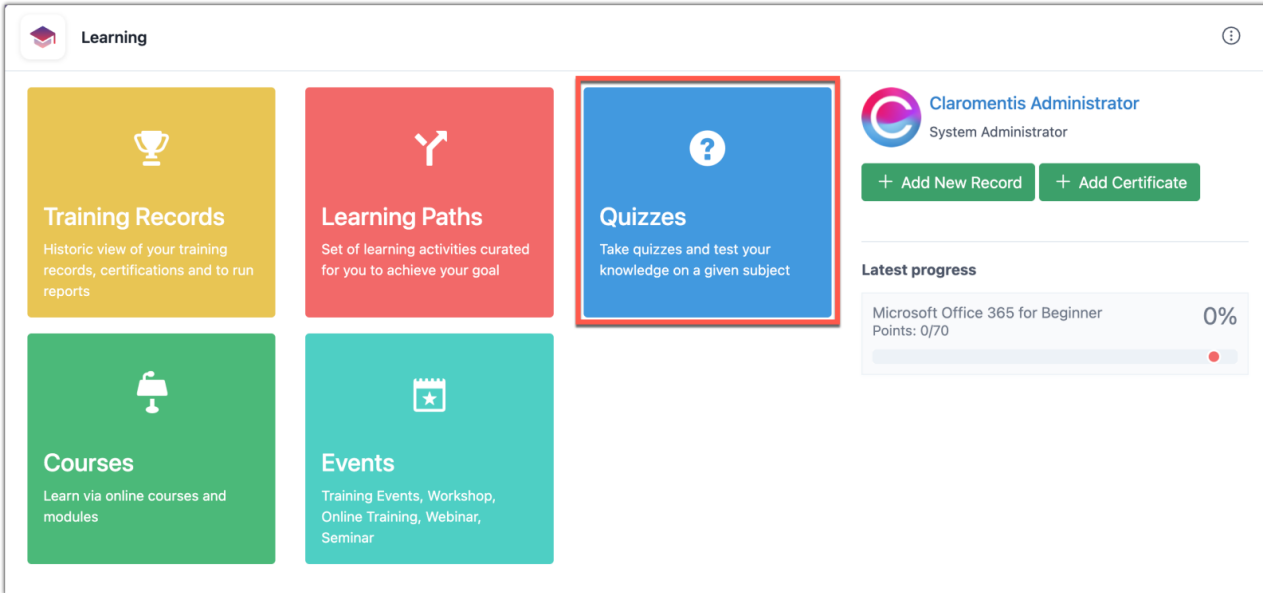

Please note: These are permissions to administer Quizzes. Permissions for users to take the Quizzes are set when each is created, as outlined [here](#).

The front-end

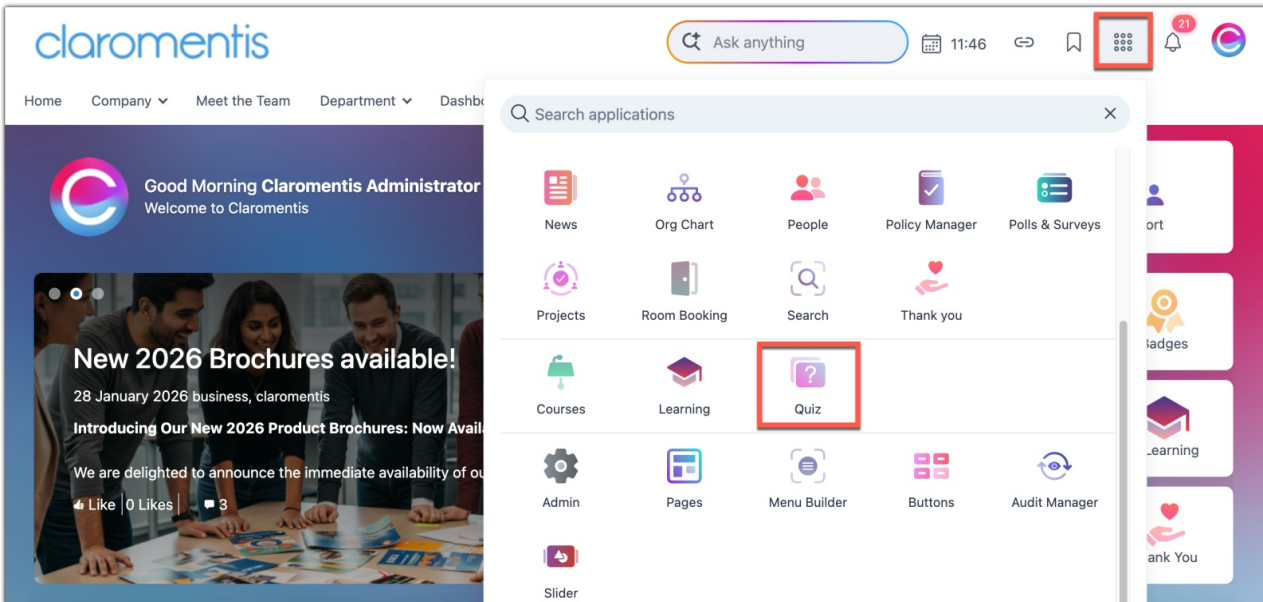

Access

The Quiz application can be opened by users in 2 ways:

1. From the Learning landing page

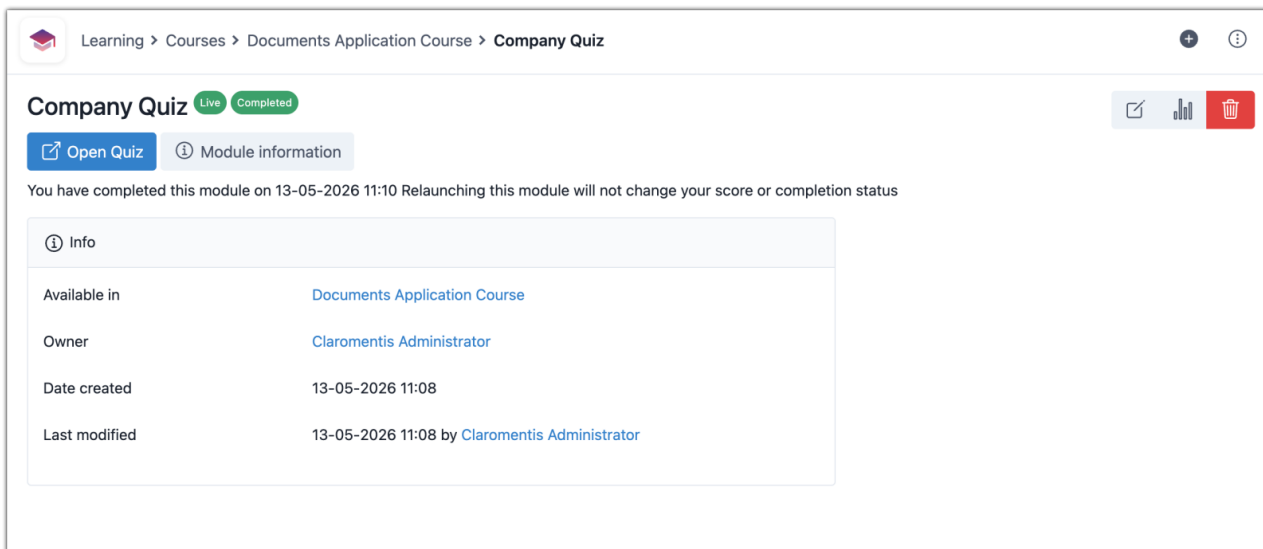

2. From the application list directly

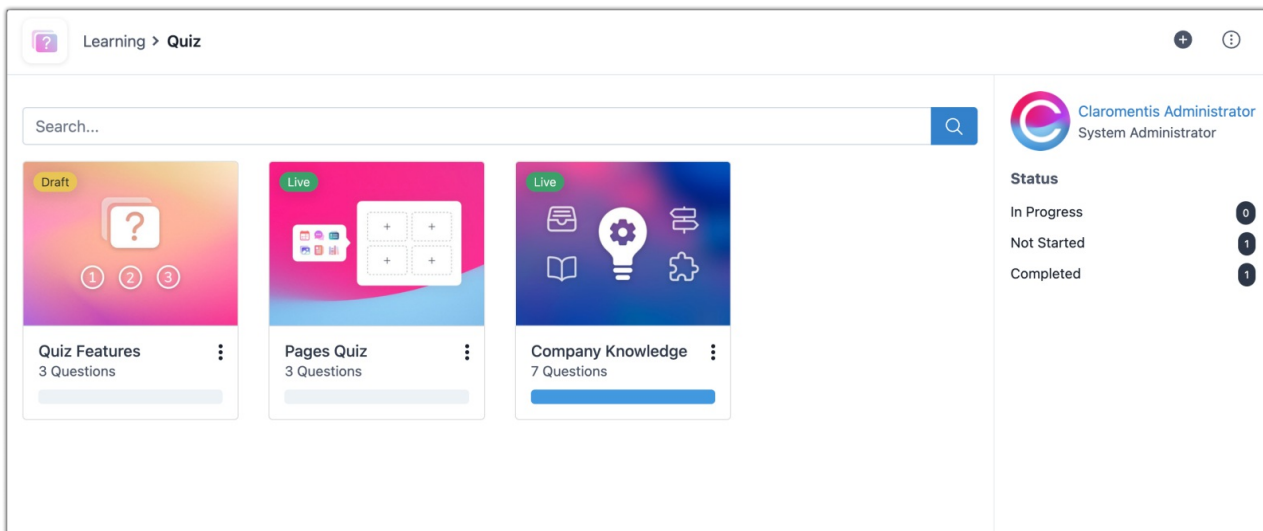

Additionally Quizzes can be used as [modules](#) in [Courses](#).

Users can open specific Quizzes from the courses to take them, rather than needing to go to the application directly.

Landing page

When opening the Quiz application from the Learning area or the application menu, the user will be shown the landing page.

- Browsing Quizzes

Users can browse all quizzes for which they have permissions.

A list of quizzes is in the middle of the page with a search field above.

On the right are categories to filter by based on completion status.

- Taking Quizzes

Clicking into a Quiz from the landing page, users can take this to answer the multiple-choice questions and pass/fail based on the settings configured by the [Quiz creator](#).

Learning > Quiz > **Company Knowledge**

Company Knowledge Live

Test your knowledge of our company's values, its history, and its goals.

Author: Claromentis Administrator

Questions: 7

Total Score: 70

Pass Mark: 42 (60%)

Attempts Left: Unlimited

[Start Quiz](#)

[Previous Attempts](#)

- Create a new Quiz

Users with permissions to create Quizzes will see the cross icon.

See our guide for more information on [creating a Quiz](#).
