- Made compatible with AngularJs 1.7 and Claromentis 8.10

2.0.1 - 20th August 2020

- Removed unfinished attempts from survey results
- Reports module - fixed growl message `invalid column name quiz_id` when choosing the options `Blank report` or `Create from template`
- Poll result page shows all options now, not only voted ones
- Fixed pagination counts for free text answers on the survey results page
- Added a warning message in survey admin if user will try to navigate away without saving data in settings tab

2.0.0 - 13th July 2020 - compatible with Claromentis versions 8.9 and above

- Initial release of Polls and Surveys

1.4.4 - 27th November 2019

- Added Hungarian translation

1.4.3 - 29th October 2019

- Added Uzbek translation

1.4.2 - 24 October 2019

- BT-843 Fixed inability to submit question options containing special characters

1.4.1 - 23 September 2019

- !10 (BT-757) [DISCO-025440] Added validation for the cyrillic alphabet. Fixed the inability to add any question to the quiz if text contains cyrillic alphabet characters.

- !10 (BT-732) Removed option from question when input field is empty

1.4.0 - 6 Aug 2019

- !8 UIUX-285 Implemented multiple correct answers for Quiz Questions
- Added tick and cross icons for answer breakdowns to indicate chosen answers more clearly
- Implemented a "Show help text" Quiz setting that determines whether to show help text such as "Choose a single correct answer" or "Choose multiple correct answers"

1.3.5 - 5 Jul 2019

- !6 UIUX-284 Increased front-end limit of Quiz titles from 50 to 255
- !7 UIUX-286 Implemented a "shuffle answers" setting for quizzes, which randomises the display order of question options shown during Quiz attempts
- Added Russian translations and a twig template
- Fixed styling of question state indicator - it looked like an egg for longer question numbers.

1.3.4 - 5 Dec 2018

- Added minimum image height to prevent images not being shown when creating quizzes (Jira CORE-160)
- Set image display dimensions for quizzes and questions to use sizes set as constants in the models (Jira CORE-160)

1.3.3 - 9 Nov 2018

- Allow deleting qualification codes if they are not being used elsewhere (disco 21941) (learning #467)

1.3.2 - 29 Aug 2018

- Removed aspect ratio lock on quiz question image.
- Updated localisation for image on question (#18)
- Widescreen / Fullscreen compatibility

1.3.1 - 5 Jun 2018

- Implemented question images
- Fixed a sizing issue with the maximum retakes field
- Fixed inconsistencies with the Quiz status counts on the home page

1.3.0 - 16 Apr 2018

- This branch has Claromentis 8.3 support and the share component

The Quiz module is compatible with Claromentis version 8.6+
