Overview

The communication tool allows you to do the following:

- Set what type of notification you would like to receive from each application
- Send direct messages to other users
- Send mass notifications to groups or users

1 - Setting your notification preferences

Access this area by clicking the cog in the in-system messenger in the navigation bar, or via Applications > Communication > Cog

The screenshot displays the Claromentis web application interface. At the top, there is a purple navigation bar with the Claromentis logo on the left, a search bar in the center, and a clock showing 10:10 am on the right. Below the navigation bar, there is a horizontal menu with various options: Home, Company, Department, Forms, Learning, Projects, Bug Tracker, Summer Event, and Books. A notification dropdown menu is open, showing three reminders: 'Reminder to complete Getting Started from Learning Management System' (3 Sep 2021 5:00 am), 'Reminder to complete Getting Started from Learning Management System' (2 Sep 2021 5:00 am), and 'Calendar Event Reminder: efweffw @ Sep 2021 9:30 am'. A calendar snippet for September is also visible, showing dates 30, 31, 1, and 2.

Your preferences will be displayed:

- Search function:** This will search all your notifications for the keyword you input.
- Default notification method:** As standard, all applications will follow the default choice.
- Email frequency:** Receive instant emails from the system, or if preferred, a daily/weekly/monthly digest.
- Auto-delete:** You can set a time limit to how long old/read notifications are stored.
- Items:** You can decide what notifications you would like to receive from each application.

Please click [here](#) for more in-depth information on Communication settings.

2 - What are 'Messages'?

Messages is a direct message tool you can use to communicate with other users on the intranet. It acts as a simplified email system.

To use, simply hit Compose . Once your message is sent, it will be displayed in this conversation style with the included users listed at the top.
