Claromentis 8.9 - New Features Webinar

This is a recording of the Claromentis 8.9 feature overview webinar on Thursday the 4th of June 2020

Features from 8.9 covered in the webinare were:

The new annoucements application

Thank you version 2

Statisitcs and global search improvements

The new twitter pages component

Also applications covered in the webinar were Badges from Claromentis 8.8 and Buttons from Claromentis 8.6

Thank you to everyone who attended the session, it was fantastic hearing your throughts on the features and will help us improve the product going further.
