

# How to Create a Multilingual News Article

News application admins can add/edit language versions of the same article using the News application in Claromentis. The same principle can be applied in our [Knowledge Base](#) application.

The below steps are outlined in the video above.

## Creating news articles in several languages

1. Start by creating a news article using **+ Add news**.

The screenshot displays the Claromentis News application interface. At the top right, a red arrow points to a green button labeled '+ Add news'. Below this, a navigation bar includes categories: All, General, BPM, Buy & Sell, Human Resources, Marketing, and Sales. The main content area features a large illustration of a smartphone with various icons, and a news article titled 'Claromentis Test' dated 31 August 2023. The article text is a placeholder Lorem Ipsum. To the right, there is a search bar and a section for 'Unpublished News' with items like 'Online Collaboration' and 'Claromentis Newsletter'. At the bottom right, a date filter shows '2023' with a count of 1, and 'August' with a count of 1, with 'Claromentis Test' listed under August.

**Reminder:** If you do not see the option to create a news article, it is likely you do not have permission to do so. Please reach out to your internal News application admin for assistance.

2. Set the **Default Language** for the article.

Click the Language field to view a list of available languages.

News / Add News Article + Add news   

Article details Metadata Additional options All

Channel

Language

Title

Tags  popular tags: intranet, claromentis, microsoft, excel, social

Short Summary **B I U T X<sub>2</sub> X<sup>2</sup> EMAIL G** [source]

The summary will be displayed at the top of the article, article preview and Pages component

Content 

3. Fill in the rest of the article information and click **Submit news** to publish.

Content 

For external Links include the whole path. E.g. <https://www.claromentis.com>. For internal links use a relative path E.g. </intranet/gallery/>

Comments  Enable  Disable

For more information on creating news articles, check out our guide [Creating news articles](#).

4. Once you have created a piece of news, you can add more languages by clicking on the 'Edit' button:

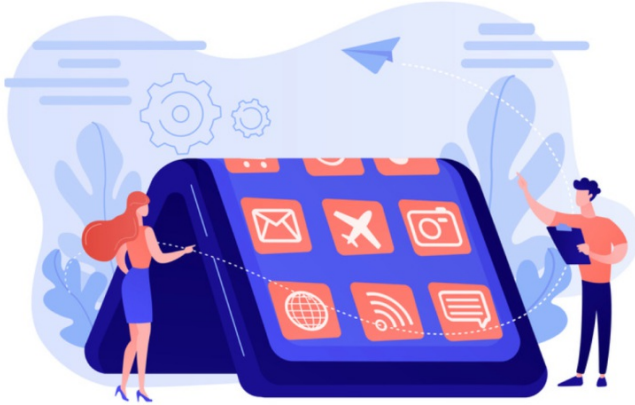

NEWS / General / Article details + Add news   

# Claromentis Test

Additional languages can be added using the method above.

8. Once published, users can switch the language of the article by using any of the available **Flag** icons.

## Default language of news article

You can change the default language of your news article.

1. Select **Options** next to the Language field.

The screenshot shows the 'Edit News' interface. At the top, there is a breadcrumb trail: 'News / Article details / Edit News'. On the right, there are buttons for '+ Add news', a trash icon, a RSS icon, and a close icon. Below the breadcrumb, there are tabs for 'Article details', 'Metadata', 'Additional options', and 'All'. The 'Article details' tab is active. The 'Channel' field is set to 'General'. The 'Language' field is set to 'English' with a red arrow pointing to the 'options' link next to it. The 'Title' field contains 'Claromentis Test'. The 'Tags' field has a search icon and a list of popular tags: 'intranet, claromentis, microsoft, excel, social'. Below the tags, there is an illustration of a person interacting with a large smartphone displaying various icons. To the right of the illustration are buttons for 'Change image' and 'Delete image'. At the bottom, there is a 'Short Summary' section with a rich text editor containing the text: 'Lorem ipsum dolor sit amet, consectetur adipiscing elit, sed do eiusmod tempor incididunt ut labore et dolore magna aliqua. Auctor augue mauris augue neque gravida in. Integer eget aliquet nibh praesent tristique magna sit amet purus 😊'. The editor includes a toolbar with icons for bold, italic, underline, text color, background color, link, and unlink, and a '[SOURCE]' button on the right.

2. Select the language you wish to set as the default language.
