

How to Create a Training Event

In Claromentis, you can easily create an event as part of the Learning curriculum. You can do so by using the Events application and defining it as a 'Training Event'. Some example training events may include a Leadership Workshop, Group Seminar, or Standard First Aid Training.

This guide shows you how to integrate the Events application in Learning.

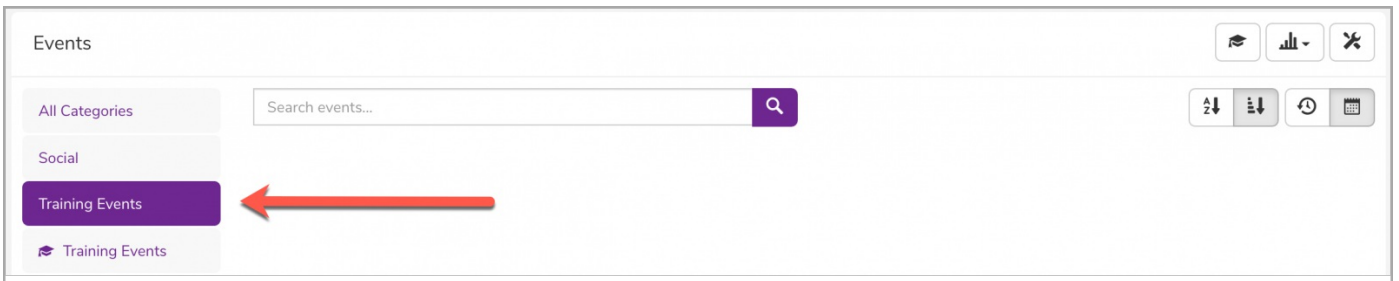

Please note: Admin permissions will need to set from both applications as permissions are not shared.

Creating a training event

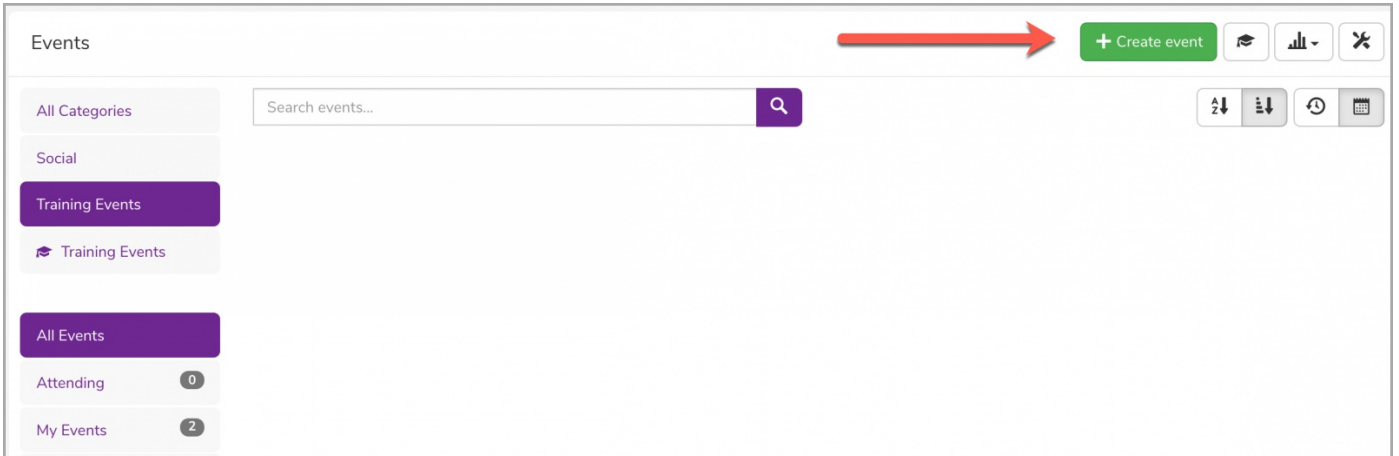

1. Head to **Application > Learning > Events**.

A screenshot of the Claromentis Learning interface. The page title is 'Learning'. In the top right corner, there are navigation icons for home, user profile, trophies, a bar chart, and a close icon. Below the title, there are five main menu items: 'Training Records' (trophy icon), 'Learning Paths' (Y icon), 'Quizzes' (question mark icon), 'Courses' (laptop icon), and 'Events' (calendar icon). The 'Events' item is highlighted with a red rectangular border. To the right of these items is a sidebar for the 'Claromentis Administrator System Administrator' user, containing buttons for '+ Add New Record' and '+ Add Certificate', and a 'Latest progress' section showing 'You have no active Learning Paths'.

You will be taken directly to the Training Events category found within the Event application.

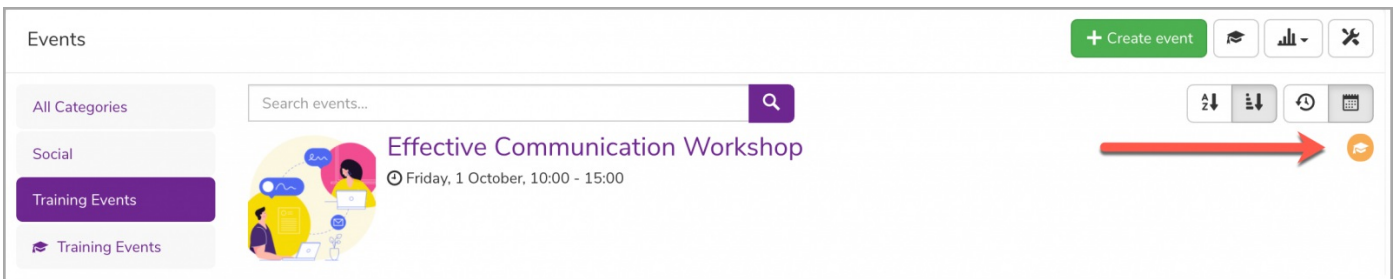

2. Use the **+ Create event** option to add an event.

Reminder: If you do not see the option to create a new event, please check with your administrator that you have the permission needed to do so.

Once created, training events will appear in the Event applications with the attached Training Icon.

Setting up a training event

Follow the 8 steps below to set up a training event.

1. Name the event and choose its category.

To start, you will be required to give the training event (1) Name, (2) Set the organiser of the event, and (3) Define the category where the event will be placed.

The screenshot shows the 'Create a new event' form. The 'Title' field is filled with 'Effective Communication Workshop'. The 'Category' dropdown menu is set to 'Training Events', and a red arrow points to it. The 'Tags' field is empty, and below it are popular tags: intranet, claromentis, microsoft, excel, team, social, powerpoint, word, holiday planner, BBQ. The 'Organiser' field is filled with 'Claromentis Administrator' and has a 'Browse' button next to it.

2. Set the Date & Time of the training event (and timezone if needed).

You will be required to specify when and for how long the training event will take place.

Date & Time * -

Full day

Repeat

Timezone

If the event will be for the whole day and/or a repeated event, you can tick the appropriate checkbox and fill out the corresponding information.

3. Provide the training event details.

You should first specify whether the event is a Webinar/Online event or an in-person training event by checking the box. You will notice that different information will be required depending on the option you choose.

This is a Webinar/Online event

Training Event This event will be marked as Training Event and recorded in user's training record

Approval Approval required to attend
 Attendee's line manager/supervisor can also approve

- If the training event is a Webinar/Online event, you will have the option to add in some Joining Details alongside the Event Details. This can be either the URL link for the training event or any supporting information users will need to join the online event.

For more information on how to set up Google Maps API, please click [here](#).

4. Define the event as a Training Event.

This step is key as it will link the event to the Learning application. Make sure you check the Training Event option and this will prompt you to select the Qualification code.

Training Event This event will be marked as Training Event and recorded in user's training record

Qualification Code

Qualification Code is a unique alphanumeric code to indicate standard of qualification across wide range of available trainings events or e-learning. This feature is used in conjunction with Learning Paths.

Reminder: The Qualification code is the most important factor that will link the training event to the appropriate Learning Path. For more information on Learning Paths and Qualification Codes, head to our article [here](#).

5. Decide the event approval and acceptance.

By checking the box(es), you can choose whether users can join the event with or without Approval (of the organiser) and whether approval can also be confirmed by users who have 'Manage Booking' permissions.

Approval Approval required to attend

Attendee's line manager/supervisor can also approve

6. Manage the number of participants allowed at the event.

You can choose whether the training event will allow for a limited number of participants or an unlimited number of participants:

Participants Limited Unlimited

Total capacity people

Allow each user to bring up to friends or family

Allow waiting list up to people

Private (Participants will not be displayed)

- If the training event will only be hosted for a limited number of participants, you can specify the total number of users allowed. You also have the option to allow extra participants (i.e. family or friends) to join and/or set up a waiting list.
- If you specify the event to be Private, this means the 'Who's Going' list not be visible for users to see.

Please note: The friends and family count will not be included in the total capacity of participants allowed to join.

7. Define the training event permissions.

You will see the following permission options that can be set for individual users and/or Roles and Groups.

Permissions

Start typing to add... Browse Remove

All registered
Role: Administrators

View only

Can join

Can Manage Booking And Attendees

Edit this event

Delete

[View effective permissions...](#)

- **View only:** User(s) can view the event details from the front-end of the application, but will not be allowed to interact with it.
- **Can join:** User(s) can join the event (or request to join).
- **Can Manage Booking And Attendees:** User(s) will be able to accept/decline approval required to attend. Users can also view the full list of attendees as well as confirm their attendance on their behalf via Event > Attendee Registration.
- **Edit this event:** User(s) will be able to edit permissions and details of the event.
- **Delete:** User(s) will be able to delete the event.

Reminder: Deleted events cannot be restored.

8. Make the event live.

When you're happy with the details of the training event, you can change the status from Draft > Live.

Status Live ▼

Display this Event at the top of the Upcoming Events list

Send an email invitation/cancellation/updates to users who can sign-up

Submit Cancel Delete Permanently

You also have the option to display the training event at the top of the list when viewed from the front-end and/or send an email notification to users who can join for any updates.

Reminder: A notification will only be sent if the following option is checked: Send an email invitation/cancellation/updates to users who can sign-up
